University's Vision, Mission and Objectives

The M. S. Ramaiah University of Applied Sciences (MSRUAS) will focus on student-centric professional education and motivates its staff and students to contribute significantly to the growth of technology, science, economy and society through their imaginative, creative and innovative pursuits. Hence, the University has articulated the following vision and objectives.

Vision

MSRUAS aspires to be the premier university of choice in Asia for student centric professional education and services with a strong focus on applied research whilst maintaining the highest academic and ethical standards in a creative and innovative environment

Mission

Our purpose is the creation and dissemination of knowledge. We are committed to creativity, innovation and excellence in our teaching and research. We value integrity, quality and teamwork in all our endeavors. We inspire critical thinking, personal development and a passion for lifelong learning. We serve the technical, scientific and economic needs of our Society.

Objectives

1. To disseminate knowledge and skills through instructions, teaching, training, seminars, workshops and symposia in Engineering and Technology, Art and Design, Management and Commerce, Health and Allied Sciences, Physical and Life Sciences, Arts, Humanities and Social Sciences to equip students and scholars to meet the needs of industries, business and society
2. To generate knowledge through research in Engineering and Technology, Art and Design, Management and Commerce, Health and Allied Sciences, Physical and Life Sciences, Arts, Humanities and Social Sciences to meet the challenges that arise in industry, business and society
3. To promote health, human well-being and provide holistic healthcare
4. To provide technical and scientific solutions to real life problems posed by industry, business and society in Engineering and Technology, Art and Design, Management and Commerce, Health and Allied Sciences, Physical and Life Sciences, Arts, Humanities and Social Sciences
5. To instill the spirit of entrepreneurship in our youth to help create more career opportunities in the society by incubating and nurturing technology product ideas and supporting technology backed business
6. To identify and nurture leadership skills in students and help in the development of our future leaders to enrich the society we live in
7. To develop partnership with universities, industries, businesses, research establishments, NGOs, international organizations, governmental organizations in India and abroad to enrich the experiences of faculties and students through research and developmental programmes

14. **Rationale for the Programme**

The hotel sector is one of the fastest growing and continuously evolving industries contributing to the world's economy. It demands astute managerial skills and a passion for innovation with a creative bent of mind. The hotel sector is a labour intensive industry and millions of job opportunities are created world- wide annually as endorsed by the United Nations World Tourism Organisation. Hotels, the primary recruiters of hotel management graduates, recommend that there is a need for programmes that offer high level training in operations, management, foreign language, information technology and entrepreneurial skills. In addition, there is a need for high quality hotel professionals with competence and a strong sense of business ethics.

The philosophy of the Bachelor of Hotel Management- programme of MSRUAS is to offer an extensive curriculum to provide the global hospitality sector with graduates who possess appropriate attributes and attitudes for a wide range of management positions. The programme focuses on a contemporary technological approach to hotel operations coupled with a strong foundation in management concepts. It also emphasises on proficiency in foreign languages, holistic personality development, ethical values and development of an inquiring mind.

Approved by the Academic Council at its 26th meeting held on 14th July 2022

Programme Structure and Course Details of B.H.M. (Bachelor of Hotel Management) 2022-onward

M.S. Ramaiah College of Hotel Management, a constituent faculty of MSRUAS, is a 28 year-old pioneer institution in Hotel Management education in the private sector in India.

With continuous upgradation, the college has state-of-the-art infrastructure and facilities, which include well- equipped kitchens, restaurants, guest rooms and front desk areas for operational skill development. Digital language laboratories, computer laboratory with property management system software, class rooms with audio-visual aids and a library with an exhaustive collection of resources complement the above facilities.

For the overall development of students, cultural and sports activities are facilitated. To give the students an edge over their contemporaries, they are intensively trained for recruitment interviews with an ongoing personality development programme. The placement cell has been successful in consistently achieving 100% placement over the years. More than fifty organisations including hotels, stand-alone restaurants, facility management companies, airlines, retailers, banks, multi-national companies and service apartments visit our college for campus recruitments. Our alumni hold key positions in the hospitality industry world over. The Faculty of Hospitality Management and Catering Technology has a team of committed teaching staff with a strong academic ethos and years of industry and teaching experience with minimum staff turnover. Their student friendly approach and dedication to teaching has ensured that the students excel in their academic and professional life.

The industry has recognised the high standard of education provided by this institution and their feedback has enabled us to be ranked amongst the leading colleges of the country.

15. Programme Mission

The programme aims to deliver competency-based hospitality and management education with an inter & multidisciplinary approach adopting global educational practices with an emphasis on the development of critical, analytical and problem-solving abilities in its graduates and associates with a passion for lifelong learning and independent thinking. The Faculty would encourage the creation of new ideas and concepts to meet the ever-growing needs of the hospitality sector.

16. Graduate Attributes(GAs)

GA-1. Hospitality Knowledge: Ability to apply knowledge of fundamental operational and financial concepts of hotel management to operate a hospitality establishment efficiently and effectively

GA-2. Problem Analysis: Ability to collect data, interpret data and arrive at meaningful solutions for solving problems in hospitality sector

GA-3. Design/development of Solutions: Ability to design a hospitality system like a restaurant, hotel, a tourist destination etc., considering public health and safety, and the cultural, societal, and environmental considerations

GA-4. Customer Management: Ability to understand and address customer issues in hospitality sector by analysing feedback obtained through interaction with the customers

GA-5. Modern Tool Usage: Ability to apply appropriate tools and techniques and understand utilisation of resources appropriately to complex hospitality activities

GA-6. The Hospitality Professional and Society: Ability to understand the effect of new and innovative solutions in hospitality on legal, cultural, social and public health and safety aspects

Approved by the Academic Council at its 26th meeting held on 14th July 2022

Faculty of Hospitality Management & Catering Technology

Page 2 of 15

Programme Structure and Course Details of B.H.M. (Bachelor of Hotel Management) 2022-onward

- GA-7. Environment and Sustainability:** Ability to develop sustainable solutions and understand their effect on society and environment
- GA-8. Ethics:** Ability to apply ethical principles to hospitality practices and professional responsibilities
- GA-9. Teamwork:** Ability to work as a member of a team, to plan and to integrate knowledge of various hospitality services to provide satisfactory solutions to customers
- GA-10. Communication:** Ability to make effective oral presentations and communicate technical ideas to a broad audience using written and oral means
- GA-11. Hospitality Management:** Ability to lead and manage multidisciplinary teams by applying management principles
- GA-12. Life-long Learning:** Ability to adapt to the changes and advancements in technology and engage in independent and life-long learning

17. Programme Outcomes (POs)

B.H.M. graduates will be able to:

- PO-1.** Develop students with an in-depth understanding of the operational aspects and knowledge of the underlying principles of the hotel industry.
- PO-2.** Making students familiar with the practical aspects of the hospitality industry.
- PO-3.** Develop professional skills in strategic management issues involved in operating hotels and train students for operational, supervisory and management positions.
- PO-4.** Enhance the techniques of advanced technological uses in the hotel industry.
- PO-5. Business Knowledge-** Students will be able to master the key frameworks, models, and skills that reflect the body of knowledge in their major, and will apply discipline-based habits of analytical thinking to problems and opportunities. Be skilled in the analysis of both qualitative information and quantitative data.
- PO-6. Communication Skills-** Students will be able to synthesize and summarize information and professionally communicate their analyses, arguments, and recommendations to a variety of audiences. Be skilled in written, oral, and visual communication and will be able to effectively choose communication methods that are appropriate to the topic, objective, and setting.
- PO-7. Quantitative Skills-** Students will be able to understand, analyse and use quantitative data to make business decisions and report to stakeholders. Identify quantitative characteristics of a problem, examine and interpret numerical data, and analyse numerical data to derive conclusions.
- PO-8. Critical Thinking Skills-** Evaluate, analyse and interpret information to solve problems and make business decisions. Interpret and evaluate unstructured situations; define the problem; apply theories to ambiguous situations and to draw conclusions and implement solutions.
- PO-9. Technology-** Demonstrate proficiency in the use of information technology. Students will use information systems to select, manipulate and process data in a meaningful way in order to make business decisions and use software tools to solve accounting, financial and quantitative problems.
- PO-10. Ethics-** Understand and evaluate ethical issues and situations to make business decisions. Recognize ethical problems in both domestic and international business contexts identify alternatives and make appropriate ethical choices.

Programme Structure and Course Details of B.H.M. (Bachelor of Hotel Management) 2022-onward

- PO-11. Multicultural and Diversity-** Students, particularly those who pursue the degree in international business concentration, will develop an awareness and understanding of the cultural issues that impact business operations in a global society.
- PO-12. Demonstrate Learning-** Enhancing skills in hospitality core areas at various positions in specialisation addressing customer satisfaction.

18. Programme Goal

The programme goal is to produce graduates with enhanced technical, managerial, critical thinking, analytical and troubleshooting skills with an ability to think independently and work ethically to pursue a career in Hotels, Travel, Tourism, Retail and other Hospitality sectors.

19. Program Educational Objectives (PEOs)

The objectives of the B.H.M. (Hotel Management) Programme are:

- PEO-1.** To provide students with knowledge of technical and management concepts to enhance competencies in Food & Beverage Production, Food & Beverage Service, Front Office and Housekeeping Operations to distinguish the graduates from others as innovative managers and leaders in hospitality sector.
- PEO-2.** To facilitate proficiency in communication, soft skills, foreign language that promotes inter-personal skills, business etiquette and enhance professional qualities to be globally competent.
- PEO-3.** To provide research opportunities to develop critical thinking abilities in the students and enable them and augment creative and innovative abilities of students to meet the challenges of the constantly evolving hospitality industry.
- PEO-4.** To inculcate professional ethics, strong human values and social skills for the development of leadership skills required for professional success in evolving global professional environments.

20. Programme Specific Outcomes (PSOs)

- PSO-1.** Apply advanced Culinary Technical Management skills with professional ethics towards service to society
- PSO-2.** Apply core technical, conceptual and analytical skills to develop leaders in the Food and Beverage Service Industry
- PSO-3.** Apply Front Office operational, managerial, and technological skills with emphasis on personality development, information handling and ethical practices required in global competitive environment
- PSO-4.** Demonstrate advanced Housekeeping, Facilities Management and Entrepreneurial skills by imbibing leadership management qualities to succeed in a sustainable environment

3. Demonstrations
4. Guest Lectures
5. Laboratory work/Field work/Workshop
6. Industry Visit
7. Seminars
8. Group Exercises
9. Project Work
10. Project
11. Exhibitions
12. Technical Festivals

25. Assessment and Grading

25.1. Components of Grading

There shall be **two components** of grading in the assessment of each course:

Component 1, Continuous Evaluation (CE): This component involves multiple subcomponents (SC1, SC2, etc.) of learning assessment. The assessment of the subcomponents of CE is conducted during the semester at regular intervals. This subcomponent represents the formative assessment of students' learning.

Component 2, Semester-end Examination (SEE): This component represents the summative assessment carried out in the form an examination conducted at the end of the semester.

Marks obtained CE and SEE components have a weightage of 60:40 (CE: 60% and SEE: 40%) in determining the final marks obtained by a student in a Course.

The complete details of Grading are given in the Academic Regulations.

25.2. Continuous Evaluation Policies

Continuous evaluation depends on the type of the course as discussed below:

25.2.1 Theory Courses

For Theory Courses Only		
Focus of COs on each Component or Subcomponent of Evaluation		
	Component 1: CE (60% Weightage)	Component 2: SEE (40% Weightage)
Subcomponent Type ▶	Terms Tests	Assignments
CO-1		
CO-2		
CO-3		
CO-4		
CO-5		
CO-6		

The details of number of tests and assignments to be conducted are presented in the Academic Regulations and Programme Specifications Document.

- CE components should have a mix of term tests, quiz and assignments

Approved by the Academic Council at its 26th meeting held on 14th July 2022

(Handwritten signature)

Programme Structure and Course Details of B.H.M. (Bachelor of Hotel Management) 2022-onward

- Two Tests (15 each), Two Assignments (20 marks). (One written and another to be MCQs)
- Course leaders to declare the assessment components before the commencement of the session and get approval from HoD and Dean

25.2.2 Laboratory Course

For a laboratory course, the scheme for determining the CE marks is as under:

For Laboratory Courses Only			
Focus of COs on each Component or Subcomponent of Evaluation			
	Component 1: CE (60% Weightage)		Component 2: SEE (40% Weightage)
Subcomponent Type ►	Conduct of Experiments	Laboratory Report + Viva	Laboratory SEE
CO-1			
CO-2			
CO-3			
CO-4			
CO-5			
CO-6			

The details of number of tests and assignments to be conducted are presented in the Academic Regulations and Programme Specifications Document

The subcomponents can be of any of the following types:

- Laboratory / Clinical Work Record
- Experiments
- Computer Simulations
- Creative Submission
- Virtual Labs
- Viva / Oral Exam
- Lab Manual Report
- Any other (e.g. combinations)

Course leaders to declare the assessment components before the commencement of the session and get approval from HoD and Dean

25.2.3 Course Having a Combination of Theory and Laboratory

For a course that contains the combination of theory and laboratory sessions, the scheme for determining the CE marks is as under:

Handwritten signature

For Combined Courses (Theory + Laboratory)					
Focus of COs on each Component or Subcomponent of Evaluation					
Course Outcome	CE (Weightage: 60 %) Four components including one Lab component			SEE (Weightage: 25 %)	Lab (Weightage: 15 %)
	Tests (30 %)	Written Assignments+ Lab (20 %)	Assignment +Lab CE (10%)	Written exam	LSEE: SEE
CO-1					
CO-2					
CO-3					
CO-4					
CO-5					
CO-6					

The details of number of tests and assignments to be conducted are presented in the Academic Regulations and Programme Specifications Document.

- CE components should have a mix of term tests, quiz and assignments
- Two Tests (15 each), Two Assignments (20 marks). (One written and another to be MCQs)
- In case of courses where laboratory is combined with theory, laboratory components to be assessed in both CE and SEE
- Course leaders to declare the assessment components before the commencement of the session and get approval from HoD and Dean

25.2.4 Ability Enhancement courses

For AECC Only		
Focus of COs on each Component or Subcomponent of Evaluation		
Subcomponent Type ►	Component 1: CE (50% Weightage)	Component 2: SEE (50% Weightage)
	Terms Tests or Assignments	
CO-1		
CO-2		
CO-3		
CO-4		
CO-5		
CO-6		

The details of number of tests and assignments to be conducted are presented in the Academic Regulations and Programme Specifications Document.

30. Co-curricular Activities

Students are encouraged to take part in co-curricular activities like seminars, conferences, symposia, paper writing, attending industry exhibitions, project competitions and related activities for enhancing their knowledge and networking.

31. Cultural and Literary Activities

Annual cultural festivals are held to showcase the creative talents in students. They are involved in planning and organizing the activities.

32. Sports and Athletics

Students are encouraged to take part in sports and athletic events regularly. Annual sports meet will be held to demonstrate sportsmanship and competitive spirit.

Catering Technology

Course Specifications: Fundamentals of Food and Beverage Production

Course Title	Fundamentals of Food and Beverage Production
Course Code	BHC101A
Course Type	Combination Course
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip the students with skills to perform food and beverage production tasks using the appropriate equipment and ingredients. It will train the students to identify and process ingredients to prepare and present food and beverage products as per industry standards. It will introduce the students to perform menu planning, indenting, storing and food safety activities

2. Course Size and Credits:

Number of Credits	2
Credit Structure (Lecture: Tutorial: Practical)	1:0:2
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the organization hierarchy and hygiene practices of the food and beverage production department
- CO2.** Describe cooking equipment and their uses in a professional kitchen
- CO3.** Identify and explain basic food and beverage ingredients and their uses in cooking
- CO4.** Demonstrate knife skills and proficiency in processing food ingredients
- CO5.** Demonstrate skills of combining and cooking ingredients to produce basic food products
- CO6.** Demonstrate proficiency and ethics in appropriate culinary practices

4. Course Contents

Unit 1 (Introduction to Cookery and the Professional Kitchen): Personal Hygiene, Kitchen Hygiene, Kitchen Ethics, Hotel Kitchen Hierarchy and Kitchen Layout

Unit 2 (Identification of Ingredients and Equipment): Identification, Description, Classification and Selection of Ingredients, Uses and Handling Equipment and Types of Cooking Fuels

Unit 3 (Knife Skills): Processing food ingredients – Food groups

Unit 4 (Basic Preparation): Doughs, Batters, Masalas, Pastes, Gravies, Stocks and Sauces

Unit 5 (Cooking Techniques and Methods): Classification, Boiling, Poaching, Steaming, Stewing, Frying, Grilling, Braising, Baking and Broiling – Principles and Techniques

5. Course Map (CO-PO-PSO Map)

C05			✓	✓			✓	✓
C06								✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Lecture, Laboratory Sessions
2.	Understanding	Demonstrations , Laboratory Sessions
3.	Critical Skills	--
4.	Analytical Skills	--
5.	Problem Solving Skills	--
6.	Practical Skills	Demonstrations, Laboratory Sessions
7.	Group Work	Laboratory Sessions and Field Visits
8.	Self-Learning	Laboratory Sessions, Field Visits

Course Specifications: Fundamentals of Housekeeping

Course Title	Fundamentals of Housekeeping
Course Code	BHC104A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to introduce the students to basic Hospitality Housekeeping, provide fundamental knowledge pertaining to housekeeping department and to provide an understanding of basic housekeeping operations. It equips them with skills to perform basic housekeeping tasks as per industry standards.

2. Course Size and Credits:

Number of Credits	2
Credit Structure (Lecture: Tutorial: Practical)	1:0:2
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1. Identify and explain services offered by the Housekeeping Department in hotels
- CO2. Identify activities performed by sections of housekeeping in hotels
- CO3. Illustrate guest room layouts and demonstrate placement of supplies and amenities in rooms and public areas
- CO4. Identify and describe latest housekeeping cleaning equipment and cleaning agents
- CO5. Discuss the products and latest procedures used in housekeeping operations
- CO6. Apply suitable housekeeping techniques for cleaning hotel surfaces

4. Course Contents

Unit 1 (Introduction to Housekeeping Department in a Hotel): Introduction to Housekeeping, Hotel Housekeeping, Functions of Housekeeping Department, Areas Covered, Services Offered

Unit 2 (Sections of Housekeeping Department): Sections and Their Basic Functions, Layout of Housekeeping Department, Professional Standards of Grooming and Personal Hygiene

Unit 3 (Guest Rooms and Public Areas): Hotel Guest Rooms, Types and Layouts, Guest Room Supplies, Guest Room Accessories, Public Areas

Unit 4 (Cleaning Equipment): Reasons for Cleaning, Classification and Types of Manual Equipment, Uses of Equipment, Care and Storage of Manual Equipment

Unit 5 (Cleaning Agents): Domestic Cleaning Agents, Cleaning Principles, Storage of Cleaning Agents, Safety Rules of Using Cleaning Agents, eco-friendly products

Unit 6 (Cleaning of Different Surfaces in a Hotel): Types of Surfaces, Types of Soil, Cleaning Techniques, Cleaning of Surfaces Using Manual Cleaning Equipment and Domestic Cleaning Agents, Ethical Practices

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3	PSO4

6. Model Studio	02	
Others		05
1. Case Study Presentation		
2. Guest Lecture	02	
3. Industry / Field Visit	02	
4. Brain Storming Sessions		
5. Group Discussions/ Role play	01	
6. Discussing Possible Innovations	00	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		55

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

Deputy
Faculty of Hospitality Management &
Catering Technology
M.S. Ramaiah University of Applied Sciences
Bengaluru - 560 054.

Deen - Academics
M.S. Ramaiah University of Applied Sciences
Bengaluru - 560 054

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
	Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign. 1 (10 marks)	Assign. 2 (10 marks)	Semester End Examination
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	10	25	20	20	50	50

C02	✓						✓	✓
C03			✓				✓	✓
C04				✓			✓	✓
C05				✓	✓		✓	✓
C06						✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

1.	Knowledge	Demonstrations using video, Assignment
2.	Understanding	Demonstrations using video, Laboratory Sessions
3.	Critical Skills	--
4.	Analytical Skills	--
5.	Problem Solving Skills	--
6.	Practical Skills	Laboratory sessions, Demonstrations using physical models, Field visits
7.	Group Work	Assignment
8.	Self-Learning	Guest lectures, Industry visit
9.	Written Communication Skills	Journal work
10.	Verbal Communication Skills	Roleplay
11.	Presentation Skills	Role play
12.	Behavioural Skills	Role play
13.	Information Management	Guest lectures, Industry visits
14.	Personal Management	Guest lectures, Industry visits
15.	Leadership Skills	--

9. Course Resources

Course Specifications: Computer Fundamentals

Course Title	Computer Fundamentals
Course Code	BHM101A
Course Type	Combination Course
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to introduce the students to fundamental knowledge pertaining to computer hardware, software, networks and Microsoft Office applications. It also aims to develop the skills to perform basic computer operations in the industry following digital ethics including fundamentals of plagiarism. It provides value added skills to make the students job worthy

2. Course Size and Credits:

Number of Credits	2
Credit Structure (Lecture: Tutorial: Practical)	1:0:2
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Describe types of computer hardware, software, networks, search engines and browsers
- CO2.** Explain email etiquette and ethics for business communication
- CO3.** Perform fundamental tasks of Microsoft application and basics of plagiarism
- CO4.** Demonstrate fundamental file management abilities
- CO5.** Discuss techniques, skills and tools necessary for latest computing practice
- CO6.** Demonstrate best practices in ethical and professional manner on social media platform

4. Course Contents

Unit 1 (Computer Hardware and Software): Introduction, Applications, Multimedia, Control Panel, Network and Tools, Fundamentals of Plagiarism

Unit 2 (E-mail): Introduction, Creation of an e-mail ID, Structure, Manage e-mail, Carbon and Blind Carbon Copies, Print e-mail,

Unit 3 (MS Word): Introduction, File, Home, Insert, Design, Page Layout, References, View

Unit 4 (MS PowerPoint): Introduction, File, Home, Insert, Design, Transition, Animations, Slide Show, View

Unit 5 (MS Excel): Introduction, File, Home, Insert, Page Layout, Formulas, View

Unit 6 (Social Media Platforms): Introduction, Social Media Applications, Features Uses, Ethical behaviour

Course Specifications: Basic Communication Skills - I

Course Title	Basic Communication Skills – I
Course Code	BHM102A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of this course is to introduce the students to the practice of effective communication. The students will learn to speak and read English with enhanced skills. Students will be able to present themselves professionally and communicate effectively at the work place. Students will be made aware of ethics in writing skills.

2. Course Size and Credits:

Number of Credits	2
Credit Structure (Lecture: Tutorial: Practical)	1:0:2
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1. Describe and exhibit the essential components of effective communication
- CO2. Practice effective listening and conversation skills
- CO3. Explain and exhibit skills of speaking English with a neutral accent
- CO4. Demonstrate basic comprehension and narration skills
- CO5. Explain and demonstrate ethical skills of written and spoken communication
- CO6. Discuss the various methods of communication used in the hospitality industry

4. Course Contents

Unit 1 (Introduction): Basics of Communication, Elements of Effective Communication, Overcoming Barriers in Communication, Self-Introduction, Introducing others

Unit 2 (Listening skills): The Impact of Listening in Communication, Building Vocabulary, Display Effective Listening, Note Taking, Comprehension, Effective Conversation

Unit 3 (Spoken Skills): Phonetics, Pronunciation, Neutralisation of Accent, Using Vocabulary, Active Constructive Response – ACR

Unit 4 (Reading Skills): Reading Print Matter, Common Grammatical Errors, Comprehension, Pronunciation, Narrating Stories

Unit 5 (Writing Skills): Paragraph Writing, Ethical Note-taking, Ethical drafting of Letters and Emails, Applications, Role Plays and Constructive Feedback

Unit 6 (Non-Verbal Communication): Introduction, Body Language, Recommended Postures for Workplace Communication, Conversing with Guests

Course Specifications: Food and Beverage Production-I

Course Title	Food and Beverage Production-I
Course Code	BHC105A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip the students with skills and knowledge to perform food and beverage production tasks using the appropriate equipment and ingredients. The students are introduced to the concepts of menu planning, material management and quality control. They are trained to identify and process ingredients to prepare and present Indian and Continental cuisine dishes.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	85
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain and apply suitable techniques of processing food ingredients efficiently and safely
- CO2.** Demonstrate professional communication skills, practice teamwork, professional ethics and uphold values
- CO3.** Classify and use masalas and gravies in the preparation and presentation of Indian dishes
- CO4.** Explain and use stocks and sauces in the preparation and presentation of Continental dishes
- CO5.** Discuss purchase, receiving and storage procedures for product quality management
- CO6.** Plan, prepare and present three course Indian and Continental menus

4. Course Contents

- Unit 1 (Introduction to Indian and Continental Cuisine):** Features, Ingredients, Cooking Methods, Menu Examples
- Unit 2 (Cereals, Pulses, Vegetables and Dairy products):** Indian and Continental Dishes- Starter, Main Course, Accompaniments, Dessert

Course Specifications: Food and Beverage Service-I

Course Title	Food and Beverage Service-I
Course Code	BHC106A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The course aims to familiarise students with fundamental concepts and essential skills in organisation and operational procedures of Food and Beverage Service outlets, menus and alcoholic beverages. The students gain knowledge and apply suitable techniques in food and beverage service operations, menu planning, as well as order taking and service of breakfast, tea, tobacco, and brewed & distilled beverages.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain food and beverage outlet operations, menus, alcoholic beverages and tobacco
- CO2.** Classify and serve breakfast and tea menus, cigars and brewed & distilled beverages
- CO3.** Demonstrate professional communication skills, practice teamwork, professional ethics uphold values and use relevant technological applications
- CO4.** Examine trends in food and beverage outlet operations, menus, varieties of cigars and styles of brewed & distilled beverages
- CO5.** Compare food and beverage outlet operations, menus, varieties of cigars and styles of brewed & distilled beverages
- CO6.** Discuss the products and operational procedures in food and beverage outlets

4. Course Contents

Unit 1 (Menus): Meal Patterns and Menu Styles, Menu Terminology, Food and Accompaniments, Lunch and Dinner, Menu Trends

Unit 2 (Breakfast and Tea): English and American Breakfast, Afternoon Tea and High Tea: Menu Planning, Cover Set Up and Service

Unit 3 (Organisation of Food and Beverage Service): Sections, Staff Organisation, Duties and Responsibilities, Opening and Closing Duties in Different Outlets, Workflow, Trends, Ethical Practices

Unit 4 (In Room Dining): Shift Cycle, Menus, Order Flow and Butler Service, Order Taking- Digital and Manual, Placing of Amenities, Tray and Trolley Set Ups, Service, Waiters Card and Control Sheet, Ethical Practices

Unit 5 (Brewed and Distilled Alcoholic Beverages): Classification, Varieties and Styles, Trends, Order Taking-Digital and Manual, Service of Spirits, Beer and Other Brewed Beverages, Ethical Practices

Unit 6 (Tobacco): Cigars- Shapes, Sizes, Colors, Storage, Order Taking-Digital and Manual, Service of Cigarettes and Cigars, Ethical Practices

CO-2	✓	✓	✓	✓			✓	✓
CO-3				✓			✓	✓
CO-4					✓	✓	✓	
CO-5	✓			✓			✓	✓
CO-6					✓	✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually- two Tests for 25 marks each two Quizzes for 10 marks each, and two Assignments for 20 marks each. (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulation Document

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face-to-face lectures, Demonstrations using video Demonstrations using physical models
2.	Understanding	Demonstrations using video, Laboratory work
3.	Critical Skills	Assignment
4.	Analytical Skills	Assignment
5.	Problem Solving Skills	----
6.	Practical Skills	Laboratory work, Role-play, Demonstrations, Field visits, Hands-on training
7.	Group Work	Role-play, Discussion
8.	Self-Learning	Guest Lectures, Industry visit
9.	Written Communication Skills	Journal work, Practical activity
10.	Verbal Communication Skills	Role-play
11.	Presentation Skills	Role-play
12.	Behavioral Skills	Role-play
13.	Information Management	Journal work
14.	Personal Management	Guest Lectures, Industry visits, Group exercises
15.	Leadership Skills	Group exercises

Course Specifications: Front Office- I

Course Title	Front Office- I
Course Code	BHC107A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to introduce the students to different Front Office sections and their daily operations as per the latest trends. It equips them to understand and learn the Front Office product delivered to guests and the entire interaction of guests with the hotel.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the various types of Front Office products and packages offered to guests
- CO2.** Summarize the role, functions, and co-ordination of Telephones, Uniformed Services and Reservations
- CO3.** Demonstrate the role of Front Office at various stages of guest cycle
- CO4.** Practice telephone handling skills and etiquette displaying professional communication skills and ethics
- CO5.** Demonstrate the activities of Uniformed staff and Reservations in a hotel
- CO6.** Interpret Reservations activities in PMS software

4. Course Contents

Unit 1 (Front Office Product): Room Types, Room Rates, Meal Plans, Packages, Guest Types, Room Status Definitions, Hotel Websites.

Unit 2 (Telephones): Role, Staff Organization, Telephone Etiquette, Equipment, Types of Calls, Special Features for Hotels, Job Specification and Description of Telephone Operator, Skills and Competencies of Telephone Operator

Unit 3 (Guest Cycle): Different Stages, Front Office Activities during Each Stage

Unit 4 (Co-ordination): Inter-section Co-ordination- Telephones, Reservation, Reception, Cash Section, Concierge, Bell Desk, Lobby, Front Office Co-ordination with Other Departments

Unit 5 (Uniformed Services): Introduction to Uniformed Services, Job Specification and Description of Uniformed Services

Unit 6 (Reservation Operations): Layout, Functions of Reservation Section, Modes and Sources, Reservation Types, Job Specification and Description of reservation Assistant, Reservation Form, Processing FIT and Corporate Reservations

Course Specifications: Basic Communication Skills - II

Course Title	Basic Communication Skills – II
Course Code	BHM103A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of this course is to facilitate the students to apply professional communication in the workplace. It will equip them with skills to prepare impressive resumes and appear for interviews. Students will be able to exhibit the essential values associated with good work ethics throughout the interview process. They will be able to present themselves professionally and communicate effectively.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Describe and exhibit the effective skills of formal introductions, welcoming, thank you addresses and professional conversation
- CO2.** Practice verbal presentation skills with appropriate grammar and pronunciation
- CO3.** Explain and demonstrate language building skills through reading and listening
- CO4.** Display professional written communication skills incorporating ethical guidelines
- CO5.** Explain and exhibit the process of creating resumes and appearing for interviews
- CO6.** Discuss and demonstrate the essence of ethics in interview preparation

4. Course Contents

Unit 1 (Professional Introduction): Introducing Others, Preparing Simple Welcome and Thank You Address, Greeting Professionally, Basic Professional Conversation Skills, Application and Practice

Unit 2 (Advanced Speaking and Presentation Skills): Positive Communication, Effective Presentation Skills, Debates and Arguments, Extempore, Words for Success, Words to Avoid

Unit 3 (Study Skills): Vocabulary Building through Reading, Making Inferences from Reading Matter, Appreciation of Written Passages, Group Discussions on Material Given, Writing Reviews of Material / Articles Used, Movie Reviews

Unit 4 (Official Communication): Formal Writing, Email/Letters of Information and Orders, Email/Letters of Complaints and Requests, Comment Cards, Drafting Notices and Circulars, Report Writing

Unit 5 (Resume Writing): Types and Structure, Tips to Prepare Effective Resume, Job Applications, Writing Cover Letters, Mistakes While Writing and Presenting a Resume,

Preparing an Effective Resume

Unit 6 (Interview Preparation): Interview Types, Preparing for Interview with Ethics, Grooming and Etiquette, Body Language, Telephonic Interviews and Video Interviews, Closing Interviews

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)

CO5	2					2			1	2		2			2	
CO6	2					2			3	2		3			2	

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		12
Demonstrations		09
1. Demonstration using Videos	03	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer	06	
Numeracy		
1. Solving Numerical Problems	00	
Practical Work		48
1. Course Laboratory	48	
2. Computer Laboratory		
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		06
1. Case Study Presentation		
2. Guest Lecture	02	
3. Industry / Field Visit	04	
4. Brain Storming Sessions		
5. Group Discussions		
6. Discussing Possible Innovations		
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		85

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign. 1 (10 marks)	Assign. 2 (10 marks)	Semester End Examination	
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	10	25	20	20	50	50
CO1	✓	✓			✓		✓	✓
CO2	✓	✓			✓		✓	✓
CO3	✓				✓		✓	✓
CO4			✓	✓		✓	✓	✓
CO5			✓	✓		✓	✓	✓
CO6			✓	✓		✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually- two Tests for 25 marks each two Quizzes for 10 marks each, and two Assignments for 20 marks each. (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulation Document

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Demonstrations using video, Face to face lectures
2.	Understanding	Demonstrations using video, Face to face lectures
3.	Critical Skills	Assignment
4.	Analytical Skills	--
5.	Problem Solving Skills	--
6.	Practical Skills	Laboratory, Role play, Laboratory Sessions
7.	Group Work	Role Play, Group Discussions
8.	Self-Learning	Guest lectures
9.	Written Communication Skills	Journal Work, Laboratory Sessions
10.	Verbal Communication Skills	Laboratory Sessions, Role-play, Story telling
11.	Presentation Skills	Role play, Mimes and Monologues
12.	Behavioral Skills	Laboratory Sessions, Workshop

13.	Information Management	Journal Work, Assessments
14.	Personal Management	Guest lectures, Role play
15.	Leadership Skills	Group Activities

Course Title	Industrial Exposure Training
Course Code	BHI201A
Course Type	Training
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to familiarize the students with the standard operating procedures (SOPs) of all departments of a hotel and equip the students with the ability to observe, comprehend and perform operations in the core departments. It gives students real-time opportunity to gain hands-on experience and develop professional skills.

2. Course Size and Credits:

Number of Credits	20
Credit Structure (Lecture: Tutorial: Practical)	0:0:40
Total Hours of Interaction	600
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	400
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1. Summarize the features and operational units of the hotel
- CO2. Illustrate and explain organizational structure of the hotel, job specification and job description of the staff
- CO3. Examine the operational procedures of the department/section
- CO4. Summarize observations and activities performed during the internship in the logbook
- CO5. Explain the SOPs followed in each department/section of the hotel
- CO6. Compile and present the internship report based on the information collected

4. Course Contents

Unit 1 (Hotel Introduction): Brand, Features, Functional Departments

Unit 2 (Organizational Structure): Hierarchy, Job Descriptions, Job Specifications

Unit 3 (Standard Operating Procedures): Operational, Supervisory, Managerial

Unit 4 (Departmental Functions): Workflow, Briefing, Shift wise Operational Task, De-Briefing

Unit 5 (Report Preparation): Introduction, Core Departments, Allied Departments

5. Course Map (CO-PO-PSO Map)

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE mix of term tests, quizzes, and assignments Two Tests (15 each), Two Assignments (20 marks). (One written and another can be Quiz, Debate, Seminar, or Case Study, as per the course requirements)

Component 2: SEE (40% Weightage)

SEE for 50 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face-to-face lectures, Demonstrations using videos and physical models
2.	Understanding	Demonstrations using video, Laboratory Sessions
3.	Critical Skills	Assignment
4.	Analytical Skills	Assignment
5.	Problem Solving Skills	
6.	Practical Skills	Laboratory Sessions, Role play, Demonstrations using videos and physical models
7.	Group Work	Laboratory Sessions, Assignment
8.	Self-Learning	Guest lectures, Industry visit
9.	Written Communication Skills	Journal work, Practical activity
10.	Verbal Communication Skills	Role Play, Laboratory Work, Assignment
11.	Presentation Skills	Role Play, Assignment
12.	Behavioral Skills	Role Play, Laboratory Sessions
13.	Information Management	Journal work, Assignment
14.	Personal Management	Guest Lectures, Industry Visits, Laboratory Sessions
15.	Leadership Skills

Course Specifications: Front Office- II

Course Title	Front Office- II
Course Code	BHC203A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to introduce the students to different Front Office sections and their daily operations as per the latest trends. It equips them to understand, learn and apply the Front Office procedures and the entire interaction of guests with the hotel

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the various procedures followed in Front Office operations
- CO2.** Demonstrate the role of the Front Office at the arrival stage of guest cycle
- CO3.** Demonstrate professional communication skills, practice teamwork, and professional ethics, uphold values, and use relevant technological applications
- CO4.** Examine and demonstrate the latest hotel check-in procedures
- CO5.** Interpret and practice Front Office activities in PMS software
- CO6.** Discuss the different guest service procedures followed in hotel Front Office

4. Course Contents

Unit 1 (Group Reservations): Consideration for Group Reservations, Role of Travel Agent and Tour Operators, Reservation and Sales, Common Problems, Forecasting and Overbooking, Ethical Practices, Room Position, Reservation Reports

Unit 2 (Bell Desk Operations): Luggage Handling Procedure on Arrival and Departure, Trends, Ethical Practices, Left Luggage Procedure, Scanty Baggage Procedure, Reports, Equipment Used, Job Specification and Description of Bell Captain

Unit 3 (Reception): Layout of the Front Desk, Reception Activities at Various Stages of Guest Cycle, Inter and Intra Departmental Co-ordination, Equipment Used, Reports, Job Specification and Description of Front Office Assistants

Unit 4 (Registration): Pre-registration, Objectives. Legal Obligations, Registration Form, Registration Procedure, Rules of the House, Documents Generated during Registration, Check-in of Various Types of Guests, Privileges for Single Lady Travelers, Upselling, No show, Cancellation and Retention, Black List, Registration Trends, When Guests Cannot be Accommodated, Handling Guest Complaints, Ethical Practices

Unit 5 (Guest Services): Handling Mails, Messages and Parcels, Paging, Room Change, Ethical Practices, Wake up Calls, Trends

Unit 6 (Latest Trends in Front Office): Latest Global Trends and Technology in Front Office

Course Specifications: Housekeeping - II

Course Title	Housekeeping - II
Course Code	BHC204A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to familiarize students with essentials of housekeeping operations for guest rooms and public areas. Identification and characteristics of fabrics will be taught to enable the students to select and design hotel uniforms and determine their care in the laundry. The concept of green housekeeping will be taught.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1. Explain and practice standard operating procedures followed in housekeeping supervision
- CO 2. Identify and discuss fabrics used in hotels
- CO 3. Demonstrate the operations of the linen room, uniform room and laundry using latest technology
- CO 4. Explain the operations of laundry, uniform room and linen room
- CO 5. Analyze and design hotel uniform patterns
- CO 6. Discuss and practice green housekeeping in hotels

4. Course Contents

Unit 1 (Housekeeping Service Standards): Standard Operating Procedures in Housekeeping Supervision, A Day of a Supervisor, Staff Scheduling, Guest Complaints Handling, Room and Public Area Checking, Role of Housekeeping Supervisor, Guest Satisfaction and Repeat Business, Ethical Practices

Unit 2 (Fibre and Fabrics): Fibre Characteristics, Weaves, Fabric Finishes, Care of Fabrics, Fabrics Used in Hotels, Repair of Fabrics

Unit 3 (Introduction to Linen): Par Stock, Linen Estimation, Linen Sizes, Criteria for Choosing Linen, Storage and Procedures Followed in Linen Room, Linen Control, Linen Quality, Life Span, Par Stock Calculation of Linen, Preparing Cold and Hot Towels

Unit 4 (Introduction to Laundry): Commercial Laundry Operations, Technological Advancements, Classification of Laundry, Laundry Equipment, Laundry Cycle and Symbols, Valet Service, Laundry Aids, Dry Cleaning, Fabric Stain Removal, Fabric Care, Technology in Daily Operations

Unit 5 (Uniforms): Uniform Room, Tailor Room, Selection of Uniform Material, Designing Uniforms, Uniform Circulation Process, Uniform Par Stock

Unit 6 (Green Housekeeping): Importance, Role of Staff, Business Partners, Guests and the Community, Environmental Ethics

Course Specifications: Food & Beverage Production – III

Course Title	Food & Beverage Production - III
Course Code	BHC301A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The course aims to deliver advanced knowledge of popular Indian and global regional cuisines. It will also provide them with culinary and analytical skills that will enable them to evaluate the quality of food and make sound menu planning decisions. It will emphasise on the art of plating and trends in garde manger.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain and apply professional techniques of processing food ingredients of regional Indian and international cuisines
- CO2.** Demonstrate proficiency in planning, costing and pricing of menus for outlets serving Indian and international cuisines
- CO3.** Apply techniques of food styling and plating of dishes as per industry standards
- CO4.** Demonstrate professional communication skills, practice teamwork; professional ethics and uphold human values
- CO5.** Classify and demonstrate the principles, ingredients, methods and trends in garde manger
- CO6.** Discuss and plan Indian and international menus for different scenarios

4. Course Contents

Unit 1 (Regional Indian Cuisines): Northern, Southern, Western, Eastern cuisines

Unit 2 (International Cuisines): Mexican, Mediterranean, Chocolate and Sugar work

Unit 3 (Garde Manger): Introduction, Classification, Methods, Charcuterie, Food Preservation

Unit 4 (Quantity Food Production): Processing, Preparing, Management, Cook chill, Cook Freeze, Sous Vide System

Unit 5 (Menu Planning): Indian, International, Quantity Food Production

Unit 6 (Art of Food Styling and Plating): Principles, Presentation Styles

Course Specifications: Food & Beverage Service - III

Course Title	Food & Beverage Service - III
Course Code	BHC302A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The course aims to provide students with knowledge and skills on advanced menu planning, outlet management, wines and specialised services. It includes supervisory and management activities, wine regions across the globe, gueridon and wine service and guest relationship management.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1.** Explain and practice administrative and operations management of food and beverage outlets
- CO 2.** Classify and plan menus for food service outlets
- CO 3.** Demonstrate professional communication skills, practice teamwork and professional ethics, uphold human values and use relevant technological applications
- CO 4.** Categorise old and new world wines, practice suggestive selling and service of wines
- CO 5.** Recommend and apply special service techniques to enhance restaurant business
- CO 6.** Discuss the products and operational procedures in food and beverage service outlets

4. Course Contents

Unit 1 (Food and Beverage Outlet Management): Shift Pattern Organisation, Duty Rosters, Duty Allocation, Customer Perception and Satisfaction, Guest Feedback Systems, Waste Management, Use of Restaurant Management Information Systems, Point of Sales-Billing, Settlement, Sales Summary, Ethical Practices

Unit 2 (Special Services in Food and Beverage Outlets): Salient Features, Special Equipment, Range of Food and Beverage Items, Organisation of Service, Promotion, Safety Considerations. Gueridon Service -Recommending Dishes, Preparation of Dishes, Obtaining Feedback, Ethical Practices

Unit 3 (Wine Regions): Old and New World Regions, Effect of Terroir on Quality, Quality Control Regulations, Label Terminology, Trends Order Taking, Description of Tasting Notes, Reading of Old and New World Wine Labels, Service, Ethical Practices

Unit 4 (Function Catering and its Administration): Classification, Seating Arrangements, Function Menu Planning, Booking Procedures, Catering Sales Strategies, Negotiations, Customising Events, Control Procedures, Staffing, Post Function Actions, Handling Enquiries, Booking Procedure,

Preparation of Banquet Event Order, Organising Meetings and Events, Point of Sales, Ethical Practices, Waste Management

Unit 5 (Advanced Menu Planning): Types of Menus, Planning Various Categories of Menus

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

M.S. Ramiah
Faculty of Hospitality Management and Catering Technology
Bangalore - 560074

Combination Course								
Subcomponent ▶ Subcomponent Type ▶	CE - 60% Weightage						SEE - 40% Weightage	
	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assi.1 (10 marks)	Assi.2 (10 marks)	Semester End Examination	
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	10	25	20	20	50	50
CO-1	✓	✓			✓	✓	✓	✓
CO-2	✓	✓		✓			✓	✓
CO-3			✓	✓				✓
CO-4				✓			✓	✓
CO-5					✓		✓	✓
CO-6						✓	✓	

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE mix of term tests, quizzes, and assignments Two Tests (15 each), Two Assignments (20 marks). (One written and another can be Quiz, Debate, Seminar, or Case Study, as per the course requirements)

Component 2: SEE (40% Weightage)

SEE for 50 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face-to-face lectures, Demonstrations using videos, physical models and computers
2.	Understanding	Demonstrations using videos, physical models and computers, Laboratory Sessions
3.	Critical Skills	Assignment
4.	Analytical Skills	Assignment
5.	Problem Solving Skills	---
6.	Practical Skills	Laboratory Sessions, Demonstrations using videos, physical models and computers, Field visits
7.	Group Work	Laboratory Sessions, Group Discussion
8.	Self-Learning	Guest lectures, Industry visit
9.	Written Communication Skills	Journal work, Laboratory Sessions
10.	Verbal Communication Skills	Laboratory Sessions
11.	Presentation Skills	Laboratory Sessions
12.	Behavioral Skills	Laboratory Sessions

Course Specifications: Front Office- III

Course Title	Front Office- III
Course Code	BHC303A
Course Type	Combination Course
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip the students to understand and practise front office cashiering procedures as per the latest technological trends along with hotel safety and security issues. It also imparts the basic concepts of revenue management.

2. Course Size and Credits:

Number of Credits	3
Credit Structure (Lecture: Tutorial: Practical)	1:0:4
Total Hours of Interaction	75
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain and exhibit the responsibilities and ethical practices followed in the hotel front office cash section
- CO2.** Demonstrate the role of cash section at various stages of guest cycle
- CO3.** Demonstrate professional communication skills, practice teamwork, and professional ethics, uphold values, and use relevant technological applications
- CO4.** Examine various departure procedures followed in hotels and illustrate documents generated
- CO5.** Analyze different safety and security measures followed by hotels for their external and internal customers
- CO6.** Discuss the role of revenue management in hotel operations.

4. Course Contents

Unit 1 (Front Office Cash): Introduction, Location, Job Specification and Description, Role of Front Office Cash Section at Various Stages of Guest Cycle, Control of Cash and Credit, Ethical Practices, Equipment Used, Technology

Unit 2 (Front Office Accounting): Introduction, Types of Accounts, Folios, Vouchers, Ledgers, Point of Sale, Front Office Accounting Cycle, Technology

Unit 3 (Check-out and Settlement): Departure Procedures, Compiling Guest Bills, Taxes Applicable, Check-out and Account Settlement, Ethical Practices, Trends, Late Check-out, Unpaid Account Balances, Account Collection, Cashier's Report, Technology

Unit 4 (Night Audit): Procedure, Purpose, Occupancy and Revenue Calculations, Technology

Unit 5 (Guest Safety and Security): Role of Front Office, Types of Security, Safe Deposit Lockers, In-room Safe, Types of Room Keys, Key Control, Lost and Found, Ethical Practices, Room Break-ins, Emergency Situation Handling, Technology

Unit 6 (Revenue Management Fundamentals): Introduction, Elements, Uses, Hotel Industry Applications, Analysis, Role of Revenue Manager

Course Title	Principles of Management
Course Code	BHN301A
Course Type	Theory
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology (FHMCT)

1. Course Summary

This course aims to enable students to understand the fundamental characteristics, the scope of management, and management functions- planning, organizing, leading, and controlling (P-O-L-C) in the hospitality sector.

2. Course Size and Credits:

Number of Credits	03
Credit Structure (Lecture: Tutorial: Practical)	3:0:0
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Management Studies - Hospitality
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1. Explain the role and concepts of management in the hospitality sector
- CO-2. Identify the 'Basis of Departmentalization' in a hotel organization
- CO-3. Discuss the dimensions of the P-O-L-C (Planning-Organizing-Leading-Controlling) framework
- CO-4. Analyse the dynamics of effective leadership, motivation, communication and coordination
- CO-5. Appraise the importance of communication, communication barriers and techniques of control in hotel operations
- CO-6. Display professional skills and ethics, practice teamwork and use relevant technological applications

4. Course Contents

Unit 1 (Introduction to Management): Characteristics, Importance, Levels, Functions, Objectives and Principles of Management, Role of Managers

Unit 2 (Planning): Objectives, Nature, Process of Planning, Types of Plans, Advantages and Limitations, Problem-Solving and Decision Making

Unit 3 (Organising): Nature, Purpose, Principles of Organising, Types of Organizations, Departments in Hospitality Organizations, Delegation of Authority and Responsibility, Staffing

Unit 4 (Leading): Definition, Fundamentals and Styles of Leadership, Qualities of a Good Leader, Importance of Motivation, Importance of Communication, Techniques of Co-ordination in Hotels

Unit 5 (Control): Importance, Essentials of a Sound Control System, Steps In Establishing Control, Techniques of Control In Hotel Operations

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2	PSO-3	PSO-4
CO-1	3															
CO-2	3															
CO-3	3						2									
CO-4	3		1				2		2	1	2		3	3		
CO-5	3		1			3	2									
CO-6	2	1		1		1		2	1	3		1	2		2	2

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		32
Demonstrations		02
1. Demonstration using Videos	02	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer		
Numeracy		
1. Solving Numerical Problems		
Practical Work		
1. Course Laboratory		
2. Computer Laboratory		
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		11
1. Case Study Presentation	04	
2. Guest Lecture	01	
3. Industry / Field Visit		
4. Brain Storming Sessions	02	
5. Group Discussions	02	
6. Discussing Possible Innovations	02	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		55

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Theory Course							
Subcomponent ►	CE - 60% Weightage						SEE - 40% Weightage
Subcomponent Type ►	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign.1 (10 marks)	Assign.2 (10 marks)	Theory Semester End Examination
Weightage in Percentage ►	15%	5%	5%	15%	10%	10%	40%
Total Marks ►	25	10	10	25	20	20	50
CO-1	✓				✓		✓
CO-2	✓	✓					✓
CO-3		✓		✓			✓
CO-4			✓	✓			✓
CO-5			✓			✓	✓
CO-6					✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 30

Component 2: SEE (40% Weightage)

SEE for 50 marks reduced to 20

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures
2.	Understanding	Face to Face lectures
3.	Critical Skills	Case Study
4.	Analytical Skills	Case Study
5.	Problem Solving Skills	Brain Storming Sessions, Group Discussions
6.	Practical Skills	Brain Storming Sessions, Group Discussions
7.	Group Work	Group Discussion
8.	Self-Learning	Guest Lectures
9.	Written Communication Skills	Case Study
10.	Verbal Communication Skills	Brain Storming Sessions, Group Discussions
11.	Presentation Skills	Brain Storming Sessions, Group Discussions
12.	Behavioral Skills	Group Discussion
13.	Information Management	Brain Storming Sessions, Group Discussions
14.	Personal Management	Presentation
15.	Leadership Skills	Brain Storming Sessions, Group Discussions

Course Specifications: Specialization Training

Course Title	Specialization Training
Course Code	BHI301A
Course Type	Training
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to enable students to follow standard operating procedures (SOPs) of the chosen area of specialization. It gives students real-time opportunity to gain hands-on experience, develop advanced professional and problem solving skills.

2. Course Size and Credits:

Number of Credits	20
Credit Structure (Lecture: Tutorial: Practical)	0:0:40
Total Hours of Interaction	600
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	400
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1. Summarize the features of the organisation
- CO 2. Examine the operational, financial, administrative and managerial procedures
- CO 3. Summarize observations and activities performed during the internship in the logbook
- CO 4. Recommend possible solutions for operational and managerial issues
- CO 5. Compile and present the internship report based on the information collected
- CO 6. Create an e-portfolio to showcase personal and professional learning and achievements

4. Course Contents

Unit 1 (Introduction): Organization Profile

Unit 2 (Organizational Structure): Hierarchy, Job Descriptions, Job Specifications

Unit 3 (Standard Operating Procedures): Operational, Administrative, Financial, Supervisory, Managerial

Unit 4 (Functions): Workflow, Briefing, Operational Tasks, Report Analysis, De-Briefing

Unit 5 (Report Preparation): Introduction, SOPs, Operational and Managerial Issues, Suggestions

Unit 6 (E-Portfolio): Introduction, Learning, Skills, Achievements, Aspirations

5. Course Map (CO-PO-PSO Map)

Course Specifications: Professional Core Elective - I - World Cuisine Management

Course Title	Professional Core Elective - I - World Cuisine Management
Course Code	BHE411A
Course Type	Professional Core Elective
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip students with advanced knowledge and skills of selected cuisines from the world. The students are taught to prepare and present all courses of a selected cuisine using popular and profitable contemporary methods. Effective kitchen procedures and principles are emphasized upon to enable them to start and run culinary operations successfully

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture:Tutorial:Practical)	2:0:4
Total Hours of Interaction	90
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Demonstrate knowledge and understanding of fundamentals of culinary concepts
- CO2.** Apply preparation and presentation techniques of contemporary and advanced menus
- CO3.** Demonstrate professional communication skills, practice teamwork, professional ethics and uphold human values
- CO4.** Analyse and develop standard recipes for contemporary menus of industry standard
- CO5.** Discuss materials management for efficient organization and control of culinary activities
- CO6.** Create and present a culinary portfolio

4. Course Contents

Unit 1 (Fundamentals of Cooking Concepts-Back to Basics): Professional Kitchen Operations, Kitchen Organisation, Kitchen Equipment, Menu Terminology, Courses of the Menu, Classical Dishes and Descriptions, Recipes, Accompaniments, Garnishes, Culinary Ethics

Unit 2 (Traditional and Modern Cuisines): Concepts, Ingredients, Cooking Methods, Popular Dishes, Trends, Ethical Practices

Unit 3 (Menu Management): Menu Planning, Development, Design, Execution of Menus, Recipe Writing, Menu Description, Menu Costing, Yield and Recipe Costing, Ethical Practices

Unit 4 (Materials Management): Purchasing, Specifications, Indenting, Receiving, Store and Issuing, Ethical Practices

Unit 5 (Food Styling and Food Photography): Elements of Food Styling, Types of Food Photography, Culinary Portfolio

Course Specifications: Professional Core Elective – I – Bar and Beverage Management

Course Title	Professional Core Elective – I – Bar and Beverage Management
Course Code	BHE412A
Course Type	Core Elective
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The course aims to provide students with fundamental food and beverage concepts, knowledge of beverage management, trends and marketing strategies. They are trained in operational and managerial procedures followed in bars. The course focuses on procedures followed in compliance with beverage laws, beverage equipment, beverage lists, beverage management systems and control procedures.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1.** Demonstrate knowledge and understanding of fundamentals of food and beverage service
- CO 2.** Explain and practice beverage control and service procedures followed in compliance with local laws
- CO 3.** Apply techniques in planning and supervising bar operations
- CO 4.** Demonstrate professional communication skills, practice teamwork, and professional ethics uphold human values and use relevant technological applications
- CO 5.** Recommend and practice bar operations in outlets to maximize quality, efficiency and profitability
- CO 6.** Discuss and plan the operational and managerial aspects of the bar

4. Course Contents

Unit 1 (Fundamentals of Food and Beverage Service-Back to Basics): Food and Beverage Service Equipment, Breakfast and Tea, French Classical Menu, Menu Terminology, Food and Accompaniments, Menu Planning for Table d'hôte Menus, Non-Alcoholic Beverages, Fundamentals of Fermented, Brewed and Distilled Beverages, Mixed Drinks, Tobacco, Banquets

Unit 2 (Beverage Industry): Today's Beverage Industry, Beverage Trends, Responsible Alcohol Service, Standard Operating Procedures, Safety and Security, Excise Regulations

Unit 3 (Beverage Equipment and Lists): Sources, Selection Factors, Purchase Procedures, Maintenance, Usage, Brand Names, Beverage Lists - Criteria, Brands, Design, Latest Trends, Regional Beverages, Pricing.

Unit 4 (Beverage Management Systems): Purchasing Controls, Receiving Controls, Store Room Controls, Issuing Controls, In-process Inventories, Prevention of Pilferage, Ethical Practices

Unit 5 (Beverage Cost Control): Standard Recipes, Standard Recipe Costs, Beverage Accounting, Overhead Cost Management, Managing Beverage Costs, Pricing Strategies, Ethical Practices

Unit 6 (Bar Management): Staffing, Supervision Activities, Bar Sales Analysis, Bartender Control Procedures, Ethical Practices, Documentation, Audits, Technological Applications

Unit 7 (Beverage Marketing Strategies): Targeting Clientele, Positioning, Marketing Budgets, Marketing Plans, Promotional Strategies, Ethical Practices, Beverage Marketing Tools

Course Specifications: Professional Core Elective – I – Guest Relationship Management

Course Title	Professional Core Elective – I – Guest Relationship Management
Course Code	BHE413A
Course Type	Core Elective
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to familiarise students with products, services and hospitality skills required in guest relations management. The students will also learn the technological trends to provide lasting relationship with guests. The course focuses on developing the problem-solving skills of students.

2. Course Size and Credits:

Number of Credits	06
Credit Structure - (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1. Demonstrate skills of applying professional functions of Front Office operations
- CO 2. Develop skills of enhancing guest experience in different scenarios
- CO 3. Demonstrate professional communication skills, practice teamwork, and professional ethics, uphold values, and use relevant technological applications
- CO 4. Explain the impact of hospitality and guest service on improving profitability
- CO 5. Discuss popular strategies employed by hotels to ensure guest satisfaction
- CO 6. Discuss and exhibit skills of dealing with demands, solving problems and handling complaints

4. Course Contents

Unit 1 (Front Office Operations): Types of Hotels, Features, Operational Structure, Accommodation Facilities, Reservation Activities, Elements of Guest Management, Personal Care & Safety

Unit 2 (Guest Experience): Introduction, Components, Importance, Impact, Guest Experience Measurement & Analysis, Causes of Bad Experience., Difference between Guest Satisfaction & Experience

Unit 3 (Guest Satisfaction): Introduction, Concepts, Components, Wow Factors, Strategies & Importance, Customize Guest Services, Impact of Guest Satisfaction

Unit 4 (Profitability of Hotel): Introduction, Significance, Profitability Ratio, Steps to Measure Hotel Profitability and Its Impact, Dimensions of Service Quality that lead to Guest Satisfaction

Unit 5 (Complaint handling): Complaints and their Characteristics, Causes of Complaints, Benefits of Handling Complaints, Complaint Handling Process, Formulating the solution

Unit 6 (Guest Relations Management): Introduction to CRM, Usage, Profitable customer relationships, CRM benefits to improve customer relationships and Revenue in Hotel Industry

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3	PSO4

4. Brain Storming Sessions	02	
5. Group Discussions	02	
6. Discussing Possible Innovations	02	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		100

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assi.1 (10 marks)	Assi.2 (10 marks)	Semester End Examination	
Subcomponent Type ▶							Theory	Practical
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	25	10	20	20	100	100
CO 1	✓	✓			⊙		✓	
CO 2	✓						✓	✓
CO 3			✓				✓	✓
CO 4			✓	✓			✓	✓
CO 5				✓		✓	✓	
CO 6						✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE mix of term tests, quiz and assignments. Two Tests (15 each), Two Assignments (20 marks). (One written and another can be Quiz, Debate, Seminar, Case Study, as per the course requirements)

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures, Demonstrations
2.	Understanding	Laboratory Sessions Demonstrations, Face to Face lectures
3.	Critical Skills	Case Studies
4.	Analytical Skills	Solving Numerical Problems
5.	Problem Solving Skills	Laboratory Sessions, Brainstorming Sessions, Case Study
6.	Practical Skills	Laboratory Sessions
7.	Group Work	Group discussions, Brainstorming
8.	Self-Learning	Field Visit, Guest lecture
9.	Written Communication Skills	Report Writing, Tests, Lab Manuals
10.	Verbal Communication Skills	Group Discussion, Case Study
11.	Presentation Skills	Assignment, Case Study
12.	Behavioral Skills	Group Discussion, Assignment
13.	Information Management	Guest lectures, Industry visits, Assignments
14.	Personal Management	Group discussion, Brainstorming
15.	Leadership Skills	Group Discussion, Brainstorming

Course Specifications: Professional Core Elective – I – Hospitality Facility Management

Course Title	Professional Core Elective – I – Hospitality Facility Management
Course Code	BHE414A
Course Type	Core Elective
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip students with knowledge and employability skills in housekeeping operations in facility management. It includes soft services, risk and vendor management. The students will also be equipped to plan and design the space for hotel operational areas.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1. Explain concepts and demonstrate skills in fundamentals of housekeeping operations
- CO2. Explain the role, importance and concepts of facility management
- CO3. Identify the components of facility management and plan facilities for a given scenario
- CO4. Appraise and practice the latest technological trends in context to soft services.
- CO5. Evaluate a facility and develop a report for different scenarios
- CO6. Discuss vendor and risk management in facility management

4. Course Contents

Unit 1 (Fundamentals of Housekeeping Operations): Classification of Hotels, Facilities in Rooms, Housekeeping Organization and Responsibilities, Layouts (Departments, Rooms and Contents), Importance of Coordination, Soft Furnishing, Linen, Furniture, Guest Supplies, Cleaning Agents, Cleaning Equipment, Uniforms, Surfaces, Stains, Forms and Formats, Accessories, Fixtures and Fittings, Lights, Soil, Cleaning, Sounds Levels, Odour Level, Shifts, Guest Rooms and Public Area Cleaning, Housekeeping Ethics

Unit 2 (Fundamentals of Facility Management): Introduction, Key Issues, Roles and Responsibilities, Requirement for Facility Management, Developing Solutions, Relationship between Client Organizations and Service Providers

Unit 3 (Components of Facilities Management): Waste Management, Furniture, Catering, Maintenance and Repair, Logistics

Unit 4 (Risk Management): Phases of Risk Management, Risk Management in Business, Types of Risks, Strategy Development, Risk Planning and Responsibilities

Unit 5 (Vendor Management): Process, Vendors Relationship, Vendor Strategy, Selection Criteria, Best Practices, Ethical Practices

Unit 6 (Hard and Soft Services): Introduction, Components, Technological Trends, Software, Robotics, Smart Cleaning

Unit 7 (Facilities Planning): Space Planning, Ergonomics, Indoor Air Quality, Noise Control, Planning for Emergency Procedures, Buildings of the Future, Latest Technology and Processes, Sustainable Facility Planning

Course Specifications: Hospitality Research and Project - I

Course Title	Hospitality Research and Project - I
Course Code	BHP401A
Course Type	Project
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

This course aims to equip students to develop the critical thinking and cognitive skills by applying systematic investigation to a research problem through the organised literature review and research methodology. To familiarise students to learn team management and project oriented skills.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	4:0:4
Total Hours of Interaction	120
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1. Identify quality journal papers, articles and conduct a systematic review of literature
- CO-2. Analyse the research gaps in hospitality market with the relevance to innovation, product development, entrepreneurship, operations, management and ethics
- CO-3. Formulate structured research topic to address the identified gaps
- CO-4. Formulate achievable objectives for an organised research
- CO-5. Develop appropriate research design and data collection tools
- CO-6. Exhibit research aptitude, ethics, professional skills, project management skills, practice teamwork and use relevant technological applications

4. Course Contents

Unit 1 (Systematic Review of Literature): Introduction to Sources of Secondary Data, Techniques of Effective Literature Research, Literature Search Engines, Citation and Referencing Style

Unit 2 (Research Gaps in Hospitality Market): Introduction to Research Gaps in Hospitality Market, Significance of Research Gaps, Techniques of Finding Research Gaps

Unit 3 (Research Topic): Formulation of Research Topic and Problem Statement, Types of Variables, Relation of Variables

Unit 4 (Research Objectives): Formulation of Achievable Research Objectives, General to Specific Objectives, Techniques of Structuring Objectives

Unit 5 (Research Methodology and Data Collection Techniques): Introduction to Research Methodology and Approach, Data Collection Techniques and Tools Framing of Research Design, Sample Frame

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)				
	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2	PSO-3	PSO-4

2. Guest Lecture	01	
3. Industry / Field Visit	03	
4. Brain Storming Sessions	01	
5. Group Discussions	01	
6. Discussing Possible Innovations	02	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		130

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme.

The procedure to determine the final course marks are also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Dean
Faculty of Hospitality Management &
Catering Technology
M.S. Ramaiah University of Applied Sciences
Bengaluru - 560 084.

Dean - Academics
M.S. Ramaiah University of Applied Sciences
Bengaluru - 560 084.

Project			
Subcomponent ▶	Component 1: CE (60% Weightage)		Component 2: SEE (40% Weightage)
Subcomponent Type ▶	Literature Review (30% Weightage)	Topic Approval (30% Weightage)	Research Proposal & Presentation
Maximum Marks ▶	100	100	100
Marks Reduced to	60	60	80
CO-1	✓		✓
CO-2	✓		✓
CO-3		✓	✓
CO-4		✓	✓
CO-5		✓	✓
CO-6	✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be two subcomponents of CE for 100 marks i.e literature review and topic approval presentation

After the two subcomponents are evaluated, the CE component marks are determined as:

CE Component Marks = 120

Component 2: SEE (40% Weightage)

After the SEE subcomponent is evaluated, the SEE component marks are determined as:

SEE Component Marks = 80

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to face lecture
2.	Understanding	Face to face lecture, Demonstration using videos
3.	Critical Skills	Brain storming sessions, Course Workshop, Discussing possible innovations
4.	Analytical Skills	Brain storming sessions, Course Workshop, Discussing possible innovations
5.	Problem Solving Skills	Brain storming sessions, Discussing possible innovations
6.	Practical Skills	Course Workshop, Brain storming sessions, Discussing possible innovations
7.	Group Work	Group discussions, Brain storming, Discussing possible innovations
8.	Self-Learning	Course Workshop, Brain storming sessions, Discussing possible innovations
9.	Written Communication Skills	Course Workshop, Brain storming sessions, Discussing possible innovations
10.	Verbal Communication Skills	Presentations
11.	Presentation Skills	Presentations
12.	Behavioral Skills	Group discussion, Brain storming
13.	Information Management	Course Workshop, Brain storming sessions, Discussing possible innovations
14.	Personal Management	Group discussion, Brain storming
15.	Leadership Skills	Group Discussion, Brain storming

Course Specifications: Research Methodology

Course Title	Research Methodology
Course Code	BHC401A
Course Type	Theory
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to provide students with knowledge and understanding of various types of research, research process, research designs, sampling techniques, data collection, data analysis and interpretation. It will also provide insight into types of reports, format and writing.

2. Course Size and Credits:

Number of Credits	03
Credit Structure (Lecture: Tutorial: Practical)	3:0:0
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the significance of research and essentials of a good research
- CO2.** Describe the various types of research and research process
- CO3.** Discuss the various sources of information for literature review
- CO4.** Discuss 'Research Design' and 'Sampling', the various statistical tools for data analysis
- CO5.** Design a sample report based on data collected, analysed and interpreted
- CO6.** Display professional communication skills and research ethics, practice teamwork and use relevant technological applications

4. Course Contents

Unit 1 (Introduction to Research Methodology): Meaning and Objectives of Research, Types of Research, Research Approaches, Significance of Research, Criteria of Good Research, Problem Faced by Researchers

Unit 2 (Research Process and Research Design): Steps in Research Process, Introduction to Research Design, Features and Important Concepts relating to Research Design, Census and Sample Survey, Different types of Sample Design, Measurement Scales, Important Scaling Techniques

Unit 3 (Data Collection): Data Collection Method, Introduction to Primary and Secondary Data, Difference in Questionnaire and Schedule, Different Methods to Collect Secondary Data, Measurement and Scaling Technique, Questionnaire Designing

Unit 4 (Data Analysis and Interpretation): Statistical Analysis using Measures of Central Tendency, Measures of Dispersion and Correlation Analysis, Hypothesis Testing, Software Packages used for Data Analysis

Unit 5 (Report Writing): Types of Report, Planning Report Writing, Research Report Format, Documentation – Footnotes and Bibliography

Unit 6 (Report Format): Introduction, Literature Review, Methodology, Result and Discussion, Summary and Conclusion, Bibliography, Appendix

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3	PSO4

CO6	2	2	2	2	3	3		3	2	3		2	3	3	3	3

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		33
Demonstrations		02
1. Demonstration using Videos	02	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer		
Numeracy		04
1. Solving Numerical Problems	04	
Practical Work		
1. Course Laboratory		
2. Computer Laboratory		
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		06
1. Case Study Presentation	02	
2. Guest Lecture	01	
3. Industry / Field Visit		
4. Brain Storming Sessions	01	
5. Group Discussions	01	
6. Discussing Possible Innovations	01	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		55

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks are also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Dean
Faculty of Hospitality Management &
Catering Technology
M.S. Ramiah University of Applied Sciences
Bengaluru - 560 084.

Dean - Academics
M.S. Ramiah University of Applied Sciences
Bengaluru - 560 084

Theory Course							
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage
Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (10 marks)	Test 2 (15 marks)	Assign.1 (10 marks)	Assign.2 (10 marks)	Theory Semester End Examination
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	40%
Total Marks ▶	25	10	10	25	20	20	100
CO-1	✓	✓					✓
CO-2	✓	✓					✓
CO-3				✓	✓		✓
CO-4				✓	✓		✓
CO-5			✓			✓	✓
CO-6			✓		✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No.	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures
2.	Understanding	Face to Face lectures
3.	Critical Skills	Case Study, Brain Storming
4.	Analytical Skills	Case Study, Group Discussions
5.	Problem Solving Skills	Case Study, Group Discussions
6.	Practical Skills	Case Study, Group Discussions
7.	Group Work	Group discussion
8.	Self-Learning	Discussing Possible Innovations
9.	Written Communication Skills	Discussing Possible Innovations
10.	Verbal Communication Skills	Brain Storming
11.	Presentation Skills	Case Study
12.	Behavioral Skills	Group Discussions
13.	Information Management	Discussing Possible Innovations
14.	Personal Management	Discussing Possible Innovations
15.	Leadership Skills	Group Discussions

Course Specifications: Hospitality Human Resource Management

Course Title	Hospitality Human Resource Management
Course Code	BHC402A
Course Type	Theory
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of this course is to provide students with knowledge and understanding of human resource management, principles of manpower planning, staffing, training and development, performance appraisal and employee grievance handling process in hospitality organizations. It enables the students in decision-making related to career planning and development.

2. Course Size and Credits:

Number of Credits	03
Credit Structure (Lecture: Tutorial: Practical)	3:0:0
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Describe the role of the human resource department and its significance in hospitality operations
- CO2.** Discuss human resource planning techniques
- CO3.** Explain the relevance of job analysis, job description and job specification in staffing
- CO4.** Identify suitable human resource management software to manage human resource functions, employee training, and career development for a given hotel business scenario
- CO5.** Suggest a framework for employee monitoring, performance appraisal of staff, employee benefits and employee grievance redressal practices
- CO6.** Demonstrate teamwork, professional communication skills, ethics, and use of relevant technological applications

4. Course Contents

Unit 1 (Human Resource Management): Introduction, Organization of Human Resource Department and its Functions in a Hotel Organization, Role of Human Resource Management, Human Resource Policies and Procedures

Unit 2 (Manpower Planning): Meaning of Manpower Planning, Short-Term and Long-Term Planning

Unit 3 (Staffing): Job Analysis, Job Description, Job Specification, Recruitment and Selection, Tests and Interviews, Placements and Induction

Unit 4 (Training and Development): Meaning and Importance, Assessment of Training Needs, Training and Development Methods in Hotels, HRM Software in Hospitality Industry

Unit 5 (Performance Appraisal): Meaning and Purpose, Factors Affecting Performance Appraisal, Reward and Feedback System

Unit 6 (Career Planning and Development): Career Assessment, Career Management Methods, Promotion and Transfers, Retirement and Other Separation Processes

Unit 7 (Grievance Handling and Discipline): Importance of Grievance Handling, Identifying Causes of Grievances, Developing Grievance Handling Systems, Workplace Discipline

5. Course Map (CO-PO-PSO Map)

Course Specification: Hospitality Financial Accounting

Course Title	Hospitality Financial Accounting
Course Code	BHC403A
Course Type	Combination
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology (FHMCT)

1. Course Summary

The aim of this course is to provide students with knowledge and understanding of accounting principles, procedures, costing and financial management in the hotel industry. The course will also address inventory management, working capital management, budgeting, ratio analysis and tallying process.

2. Course Size and Credits:

Number of Credits	03
Credit Structure (Lecture: Tutorial: Practical)	2:0:2
Total Hours of Interaction	60
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

CO-1. Explain the concepts and elements of cost and financial accounting in hospitality

CO-2. Describe financial accounting principles and framework

CO-3. Record transactions and prepare balance sheet

CO-4. Examine journal entries in Tally and other accounting software

CO-5. Discuss the concept of internal control and cost management, capital budgeting, ratio analysis for long term planning in hotel industry

CO-6. Display professional skills and ethics, practice teamwork and use relevant technological applications

4. Course Contents

Unit 1 (Introduction to Accounts): Definition of Accounting, Golden Rules of Accounting, Objectives Advantages of Accounting in Hotel Industry, Users of Accounting Information, Accounting Principle

Unit 2 (Introduction to Costing and Finance): Importance, Advantages and Disadvantages of Costing, Types and Elements of Cost and Profit, Scope, Goals and Functions of Financial Management, List and Classification of Elements of Costs Incurred in Hotels

Unit 3 (Accounting Records): Voucher System, Accounting Process, Journals, Subsidiary Books, Ledger, Cash Book, Bank Reconciliation Statement, Trial Balance, Journal Entries in Tally and Other Accounting Software

Unit 4 (Internal Control): Objectives of Stores Control, Advantages and Disadvantages of FIFO And LIFO, Preparation of Stores Ledger Under FIFO And LIFO

Unit 5 (Working Capital Management): Concept of Working Capital, Components of Working Capital, Factors Affecting Working Capital Management, Working Capital Management in Hotel Industry, Calculation of Budgets

Unit 6 (Ratio analysis): Objectives of Ratio Analysis, Operating Ratios And Liquidity Ratios in Hotels, Calculation of Operating Ratios and Liquidity Ratios

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2	PSO-3	PSO-4

Course Specifications: Professional Core Elective – II – Culinary Entrepreneurship

Course Title	Professional Core Elective – II – Culinary Entrepreneurship
Course Code	BHE421A
Course Type	Core Elective
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip students with operational, managerial and entrepreneurial concepts and skills in culinary. It includes menu, materials and marketing management for new ventures. Emphasis is placed on developing sound business plans with a focus on quality and profitability

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture:Tutorial:Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO 1. Explain and apply culinary business concepts and current trends
- CO 2. Demonstrate trends in planning and presenting menus
- CO 3. Demonstrate professional communication skills, practice teamwork, and professional ethics, uphold values, and use relevant technological applications
- CO 4. Analyse and develop material management procedures for efficient organization and control of culinary activities
- CO 5. Evaluate and use standard recipes with a focus on quality, nutrition and profitability
- CO 6. Develop a business plan and marketing strategies for a new venture

4. Course Contents

Unit 1 (Culinary Business Concepts): Introduction to Conventional and Unconventional Food Business, Regulations, Infrastructure and Technology Requirement

Unit 2 (Innovative and Creative Menu): Design, Develop, Nutritional Aspects, Presenting Menus

Unit 3 (Food and Beverage Management): Recipe and Food Costing, Cost Control, Inventory Management, Ethical Consideration, Material Handling

Unit 4 (Quality Management): Quality Planning, Quality Assurance, Quality Control

Unit 5 (Marketing): Essentials of Food and Beverage Marketing, Strategies, Branding, Product Life Cycle

Unit 6 (Business Plan): Executive Summary, Description, Market Analysis, Marketing Plan, Competitive Analysis, Operating Plan, Financial Projection

5. Course Map (CO-PO-PSO Map)

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		18
Demonstrations		12
1. Demonstration using Videos	06	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer	06	
Numeracy		04
Solving Numerical Problems	04	
Practical Work		98
1. Course Laboratory	88	
2. Computer Laboratory	10	
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		18
1. Case Study Presentation/ Student Seminar	02	
2. Guest Lecture	02	
3. Industry / Field Visit	08	
4. Brain Storming Sessions	02	
5. Group Discussions	02	
6. Discussing Possible Innovations	02	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		160

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assi.1 (10 marks)	Assi.2 (10 marks)	Semester End Examination	
Subcomponent Type ▶							Theory	Practical
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	10	25	15	15	50	50
CO-1	✓	✓					✓	✓
CO-2	✓		✓	✓			✓	✓
CO-3				✓				✓
CO-4					✓		✓	
CO-5				✓			✓	✓
CO-6						✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE mix of term tests, quiz and assignments. Two Tests (15 each), Two Assignments (20 marks). (One written and another can be Quiz, Debate, Seminar, Case Study, as per the course requirements)

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to face lecture
2.	Understanding	Face to face lecture, Demonstration using videos and on a computer
3.	Critical Skills	Brain Storming, Solving Numerical Problems
4.	Analytical Skills	Brain Storming, Case study, Assignment
5.	Problem Solving Skills	Brain Storming, Assignment, Discussing Possible Innovations, Solving Numerical Problems
6.	Practical Skills	Laboratory Sessions
7.	Group Work	Group discussions, Brain Storming, Discussing Possible Innovations, Laboratory Sessions
8.	Self-Learning	Field Visit, Guest lecture
9.	Written Communication Skills	Journal Work, Assignment
10.	Verbal Communication Skills	Laboratory Sessions, Group Discussion, Case Study
11.	Presentation Skills	Case study, Assignment
12.	Behavioural Skills	Group discussion, Brain Storming, Laboratory Sessions
13.	Information Management	Guest Lecture, Industry Visits, Assignment
14.	Personal Management	Laboratory Sessions
15.	Leadership Skills	Group Discussion, Brain Storming

Course Specifications: Professional Core Elective – II – Food Service Entrepreneurship

Course Title	Professional Core Elective – II – Food Service Entrepreneurship
Course Code	BHE422A
Course Type	Core Elective
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to provide knowledge and practical experience in conceptualisation, facility planning, workforce development and marketing of a new restaurant. It includes preparation of business plans, planning and designing of menus and physical facilities, budgeting, staffing and prelaunch marketing activities.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the concepts of restaurant entrepreneurship and steps in establishing food service establishments
- CO2.** Demonstrate skills in planning and launching a new food and beverage outlet
- CO3.** Plan menus and marketing activities to successfully launch a food and beverage establishment
- CO4.** Display professional communication skills, practice teamwork and professional ethics uphold human values and use relevant technological applications
- CO5.** Appraise food and beverage business opportunities and plan a food and beverage establishment
- CO6.** Discuss facilities and menu planning, workforce development and marketing strategies for a new food and beverage outlet

4. Course Contents

Unit 1 (Introduction to Restaurant Entrepreneurship): History, Concepts, Forms of Restaurant Ownership, Finance Agencies, Trends, Success Factors

Unit 2 (Steps in Establishment of a New Restaurant): Identifying the Business Opportunity, Market Feasibility, Financial Viability, Business Plan, Preopening Phase, Soft Launch and Grand Opening, Technological Applications

Unit 3 (Planning the Physical Facility): Back of the House Areas, Kitchen and Service Area – Coffee Shop, Specialty Restaurant, Banqueting Facility, Bar, Patisserie, Budgeting, Ethical Practices, Technological Applications

Unit 4 (Development of Workforce): Budgeting, Organisational Design, Determination of Staffing Levels, Creation of Job Specifications and Job Descriptions, Employment Process, Training, Ethical Practices, Technological Applications

Unit 5 (Development and Designing of Menu): Menu Content, Pricing, Measuring Menu Strength, Menu Design, Menu Alternatives, Technological Applications

Unit 6 (Pre-Launch Marketing Strategies): Development of Marketing Plan, Value Proposition, Positioning, Advertising and Promotion, Pricing as a Marketing Tool, Prelaunch Marketing Activities and Cost, Ethical Practices, Technological Applications

Course Specifications: Professional Core Elective – II – Housekeeping Entrepreneurship

Course Title	Professional Core Elective – II – Housekeeping Entrepreneurship
Course Code	BHE424A
Course Type	Core Elective
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to equip students with knowledge, managerial and entrepreneurial skills in Housekeeping. It includes resource and project management for successfully and ethically operating and starting business ventures.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1. Explain the key elements of housekeeping entrepreneurship
- CO2. Identify and analyse processes for a preopening hotel project
- CO3. Classify and plan budgets for housekeeping operations
- CO4. Analyse and recommend measures for effective resource management
- CO5. Examine latest technology to manage housekeeping ventures
- CO6. Discuss and develop a business plan for a housekeeping start-up

4. Course Contents

Unit 1 (Planning and Organizing Housekeeping Department of a Hotel): Areas of Housekeeping Responsibility, Area Inventory List and Frequency Schedules, Performance and Productivity Standards, Recycled and Non-Recycled Inventories, Sustainable and Ethical Practices, Job Lists, Job Description, Job Breakdown

Unit 2 (Preopening Hotel Project): Layouts, Countdown for Opening A New Property, Three Months in Advance, Two Months in Advance, Weeks to Go, Snag list

Unit 3 (Budget & Budgetary Control): The Budget Process, Capital Budget, Operating Budget, Cost Per Occupied Room, Income Statement, Estimating Housekeeping Expenses, Budget Goals, Methods of Budgetary Control, Ethical Practices

Unit 4 (New Work Force): Labor Market, Staffing Guide, Job Specification, Fixed and Variable Staff Positions, Selection Process, Training, Employee Benefits, Employee Turnover, Ethical Practices

Unit 5 (Housekeeping Start- Ups): Roadmap to Start an Entrepreneurial Venture in Housekeeping, Investment, Budgeting of New Venture, Branding, Resource Management, Technology, Digital Marketing

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE mix of term tests, quiz and assignments. Two Tests (15 each), Two Assignments (20 marks). (One written and another can be Quiz, Debate, Seminar, Case Study, as per the course requirements)

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures, Laboratory Sessions, Demonstration using Videos and Physical Models
2.	Understanding	Face to Face lectures, Laboratory Sessions, Demonstration using Videos and Physical Models
3.	Critical Skills	Case Studies
4.	Analytical Skills	Laboratory Sessions, Brain Storming, Case Studies
5.	Problem Solving Skills	Laboratory Sessions, Brain Storming, Discussing Possible Innovations
6.	Practical Skills	Laboratory Sessions
7.	Group Work	Group Discussions, Brain Storming, Discussing Possible Innovations
8.	Self-Learning	Field Visit, Guest lecture
9.	Written Communication Skills	Report Writing, Assignment
10.	Verbal Communication Skills	Group Discussion, Case Study
11.	Presentation Skills	Assignment, Case Study
12.	Behavioral Skills	Group Discussion, Industry Visit
13.	Information Management	Industry Visits, Assignments
14.	Personal Management	Group Discussion, Brain Storming
15.	Leadership Skills	Group Discussion, Brain Storming

9. Course Resources

Course Specifications: Hospitality Research and Project - II

Course Title	Hospitality Research and Project - II
Course Code	BHP402A
Course Type	Project
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology

1. Course Summary

This course aims to equip students to develop critical thinking and cognitive skills by applying systematic investigation to a research problem through the organised literature review, research methodology, data collection and analysis. To familiarise students to learn team management and project oriented skills.

2. Course Size and Credits:

Number of Credits	6
Credit Structure (Lecture: Tutorial: Practical)	2:0:8
Total Hours of Interaction	150
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	200
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1. Design research/ product model, solve, analyse the product/system to meet the design specifications
- CO-2. Develop a working model (preferably a physical model)/Process and evaluate its performance
- CO-3. Demonstrate the working of the system/process and make a project presentation
- CO-4. Exhibit quantitative, critical thinking and entrepreneurial skills
- CO-5. Develop and present a quality project report
- CO-6. Demonstrate research ethics and aptitude, professional communication, team management, project management and problem-solving skills.

4. Course Contents

Unit 1 (Design research/ product model): Develop Research Design, Techniques/ Tools of Data Collection, Sources of Primary Data

Unit 2 (Product/ Process Development Planning, Cost Calculations): Project Management using Gantt Chart, Development & Planning, Costing and Control

Unit 3 (Data Collection): Experimental, Qualitative, Quantitative, Mixed Methods, Survey, etc.

Unit 4 (Data Analysis and Interpretation): Data Mining, Analysis using Various Research Tools and Techniques, Result Discussion, Application of Quantitative, Qualitative Research Skills and Project Management

Unit 5 (Report Writing and Presentation): Project Report Writing Techniques, Structure/ Format, Presentation, Team Management

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2	PSO-3	PSO-4
CO-1	3	3			2		2	2				2	2	1	2	2
CO-2	3	3			2		2	2				2		2	2	2
CO-3	3	3	2	3	3		3	2	2			2	3	2	2	2
CO-4	3	3	3	2	3	3	3	3			3	3	3	3	3	3
CO-5	3	3	3	3	3	3	3	3	3	3		3	2	2	3	1
CO-6	3	3	3		3	3	3	3	2	3		3	2	2	2	2

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		34
Demonstrations		10
1. Demonstration using Videos	06	
2. Demonstration using Physical Models / Systems	02	
3. Demonstration on a Computer	02	
Numeracy		10
1. Solving Numerical Problems	10	
Practical Work		55
1. Course Laboratory	15	
2. Computer Laboratory	20	
3. Engineering Workshop / Course Workshop / Kitchen	20	
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		41
1. Case Study Presentation	04	
2. Guest Lecture	02	
3. Industry / Field Visit	12	
4. Brain Storming Sessions	05	
5. Group Discussions	08	
6. Discussing Possible Innovations	10	
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		160

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE (SC1, SC2), COs are assessed as illustrated in the following table.

Dean
Faculty of Hospitality Management &
Catering Technology
M.S. Ramiah University of Applied Sciences
Bengaluru - 560 054.

Dean - Academics
M.S. Ramiah University of Applied Sciences
Bengaluru - 560 054.

Project			
Subcomponent ▶	Component 1: CE (60% Weightage)		Component 2: SEE (40% Weightage)
Subcomponent Type ▶	Interim Presentation, Tools of Data Collection (30% Weightage)	Data Analysis, Product Demonstration & Log Diary (30% Weightage)	Report and Presentation
Maximum Marks ▶	100	100	100
Marks Reduced to	60	60	80
CO-1	✓		✓
CO-2	✓		✓
CO-3		✓	✓
CO-4		✓	✓
CO-5		✓	✓
CO-6	✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be two subcomponents of CE for 120 marks i.e. tools of data collection and analysis, log diary, product demonstration and presentation

After the two subcomponents are evaluated, the CE component marks are determined as:

CE Component Marks = 120

Component 2: SEE (40% Weightage)

After the SEE subcomponent is evaluated, the SEE component marks are determined as:

SEE Component Marks = 80

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to face lecture
2.	Understanding	Face to face lecture, Demonstration using videos
3.	Critical Skills	Brain storming sessions, Course Workshop, Discussing possible innovations
4.	Analytical Skills	Brain storming sessions, Course Workshop, Discussing possible innovations
5.	Problem Solving Skills	Brain storming sessions, Discussing possible innovations
6.	Practical Skills	Course Workshop, Brain storming sessions, Discussing possible innovations
7.	Group Work	Group discussions, Brain storming, Discussing possible innovations
8.	Self-Learning	Course Workshop, Discussing possible innovations
9.	Written Communication Skills	Course Workshop, Discussing possible innovations

10.	Verbal Communication Skills	Presentations
11.	Presentation Skills	Presentations
12.	Behavioral Skills	Group discussion, Brain storming
13.	Information Management	Course Workshop, Discussing possible innovations
14.	Personal Management	Group discussion, Brain storming
15.	Leadership Skills	Group Discussion, Brain storming

Course Specification: Hospitality French

Course Title	Hospitality French
Course Code	BHN401A
Course Type	Combination
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology (FHMCT)

1. Course Summary

The aim of the course is to familiarize students with functional French used in the hospitality industry. The students will be taught relevant grammar concepts applicable to verbal and written communication. Reading, spoken and written skills will be emphasized. It enhances communication and interpersonal skills while dealing with global customers at the workplace.

2. Course Size and Credits:

Number of Credits	04
Credit Structure (Lecture:Tutorial:Practical)	2:0:4
Total Hours of Interaction	90
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1.Explain French alphabets, numbers and grammar concepts
- CO-2.Describe French culinary, hospitality terms and concepts
- CO-3.Demonstrate communication skills in French
- CO-4.Identify and present French culinary regions, indigenous dishes
- CO-5.Classify types of tourism and tourist regions in France
- CO-6.Demonstrate teamwork, professional ethics and use relevant technological applications for presentations

4. Course Contents

Unit 1 (Introduction à la Langue Française): Les Salutations, Les alphabets, Les accents, La liaison, L'élision

Unit 2 (Les Verbes au Présent) : Les nombres, l'heure, la météo, Les verbes au présent (-er, -re, -ir, pronominaux)

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign.1 (10 marks)	Assign.2 (10 marks)	Semester End Examination	
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Total Marks ▶	25	10	10	25	20	20	50	50
Marks Reduced to	15	5	5	15	10	10	20	20
CO-1	✓	✓					✓	✓
CO-2	✓	✓					✓	✓
CO-3				✓			✓	✓
CO-4			✓	✓	✓		✓	✓
CO-5			✓		✓	✓	✓	✓
CO-6					✓	✓		✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures, Demonstrations
2.	Understanding	Course Laboratory

Course Specifications: Hospitality Marketing

Course Title	Hospitality Marketing
Course Code	BHC404A
Course Type	Theory
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology (FHMCT)

1. Course Summary

The aim of this course is to provide students with knowledge of marketing concepts, consumer behavior and need, feedback, market segmentation strategies and elements of the marketing mix in relation to the hospitality industry. It provides students with an insight into the latest e-marketing, trends in hospitality marketing.

2. Course Size and Credits:

Number of Credits	04
Credit Structure (Lecture:Tutorial:Practical)	4:0:0
Total Hours of Interaction	60
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1.** Explain the nature and role of services marketing in hospitality industry
- CO-2.** Discuss the marketing segmentation strategies, STP model in hospitality industry
- CO-3.** Illustrate the significance of people, process and physical evidence in hospitality marketing
- CO-4.** Examine guest feedback and recommend appropriate marketing mix strategies in hospitality industry
- CO-5.** Analyze the implications of changing consumer needs, behaviour, marketing trends and advanced promotional technological tools
- CO-6.** Demonstrate teamwork, practice professional communication skills, ethics and use relevant technological applications

4. Course Contents

Unit 1 (Market Segmentation and Consumer Behaviour): Introduction to Marketing and Market Segmentation, STP - Segmentation, Targeting, Positioning Model, Factors Affecting Consumer Behavior and Needs

Unit 2 (Hospitality Marketing Mix): Introduction to Marketing Mix, 7 Ps of Hospitality Marketing Mix, Unique Aspects of Food Service Marketing

Unit 3 (Product Mix): Introduction to Product and Service Mix, Levels of Product, Hospitality Products, Product Life Cycle

Unit 4 (Price Mix): Introduction to Price and Pricing Strategy, Hotel, Restaurant and Other Hospitality Sector Pricing Strategy

Unit 5 (Place Mix): Importance of Place-Distribution System, Intermediaries for Hospitality Industry, Franchising Model

Unit 6 (Promotion Mix): Characteristics of Promotion Tools, Objectives of Promotion, Trends in Marketing, E-marketing, Advanced Technological Promotional Tools Used in the Hospitality Industry

Unit 7 (People, Process and Physical Evidence): Importance of People, Process and Physical Evidence Mix in Hospitality Industry

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Theory Course							
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage
Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign.1 (10 marks)	Assign.2 (10 marks)	Semester End Examination Theory
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	40%
Total Marks ▶	25	10	10	25	20	20	100
Marks Reduced to	15	5	5	15	10	10	40
CO-1	✓	✓					✓
CO-2	✓	✓					✓
CO-3				✓	✓		✓
CO-4			✓	✓	✓		✓
CO-5			✓			✓	✓
CO-6					✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures
2.	Understanding	Face to Face lectures
3.	Critical Skills	Assignment, Case Study Presentation
4.	Analytical Skills	Assignment, Case Study Presentation
5.	Problem Solving Skills	Case Study Presentation Brainstorming
6.	Practical Skills	Assignment, Case Study Presentation
7.	Group Work	Group Discussion, Brainstorming
8.	Self-Learning	Guest Lectures, Assignment
9.	Written Communication Skills	Assignment
10.	Verbal Communication Skills	Case Study Presentation
11.	Presentation Skills	Case Study Presentation

12.	Behavioral Skills	Group Discussion
13.	Information Management	Brainstorming
14.	Personal Management	Case Study Presentation
15.	Leadership Skills	Brainstorming

Course Specifications: Organisational Behaviour

Course Title	Organisational Behaviour
Course Code	BHN402A
Course Type	AECC
Department	Hotel Management
Faculty	Faculty of Hospitality Management and Catering Technology (FHMCT)

1. Course Summary

The aim of the course is to train the students to learn the key concepts of organisational behaviour and its importance. The course is intended to familiarize students with the change in structure, culture, design, behaviour, group dynamics and psychological aspects of an organisation. Students will also gain an appreciation of the impact of perception and motivation for managerial practices.

2. Course Size and Credits:

Number of Credits	02
Credit Structure (Lecture:Tutorial:Practical)	2:0:0
Total Hours of Interaction	30
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO-1. Explain the key terms and concepts of organisational behaviour
- CO-2. Describe the factors affecting individual behavior at work place
- CO-3. Discuss the importance of group dynamics in organisations
- CO-4. Analyse the impact of perception and motivation on Organisational Behaviour
- CO-5. Assess the impact of organisational change on the structure, design and culture of an organisation
- CO-6. Demonstrate teamwork, professional communication skills, ethics and use relevant technological applications

4. Course Contents

Unit 1 (Introduction to Organisational Behaviour-OB): Nature and Scope of Organisational Behaviour, Contributing Disciplines, OB Model, Personality Framework, Determinants of Personality

Unit 2 (Attitudes): Characteristics, Components, Formation of Attitude, Relation between Attitude and Behavior, Benefits and ways of Developing Positive Attitude, Cognitive Dissonance Theory, Measuring Attitudes, Learning process, Learning Theories

Unit 3 (Perception): Need, Factors Influencing Perception, Understanding Perception and Judgment, Attribution theory, Perception Errors, Group Behavior, Types of Groups, Functions and Formation/ Stages of Groups Development and Cohesiveness, Group Decision-making techniques.

Unit 4 (Motivation and Leadership Concepts): Importance, Leader Vs Managers, Leadership style, Leadership Theories, Motivation, Theories of motivation

Unit 5 (Organizational Change): Nature of Work Change, Organisational Change Process, Factors Influencing Change, Resistance to Change, Overcoming Resistance, Stress Management

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO-1	PO-2	PO-3	PO-4	PO-5	PO-6	PO-7	PO-8	PO-9	PO-10	PO-11	PO-12	PSO-1	PSO-2	PSO-3	PSO-4
CO-1	3															
CO-2	3													2		
CO-3	3	3									3		2			
CO-4	3	3	3			2		3							2	
CO-5	3	3	3		3			3	3			3	2			1
CO-6	3	3	3	1	3	3		3		3		2	2	2		

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		22
Demonstrations		02
1. Demonstration using Videos	02	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer		
Numeracy		
1. Solving Numerical Problems		
Practical Work		
1. Course Laboratory		
2. Computer Laboratory		
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		06
1. Case Study Presentation	03	
2. Guest Lecture	01	
3. Industry / Field Visit		
4. Brain Storming Sessions	01	
5. Group Discussions	01	
6. Discussing Possible Innovations		
Term Tests, Laboratory Examination/ Written Examination, Presentations		10
Total Duration in Hours		40

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks are also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following table:

Theory Course							
Subcomponent ►	CE - 60% Weightage						SEE - 40% Weightage
Subcomponent Type ►	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign.1 (10 marks)	Assign.2 (10 marks)	Semester End Examination Theory
Weightage in Percentage ►	15%	5%	5%	15%	10%	10%	40%
Total Marks ►	25	10	10	25	20	20	100
Marks Reduced to	15	5	5	15	10	10	40
CO-1	✓	✓					✓
CO-2	✓	✓					✓
CO-3				✓	✓		✓
CO-4			✓	✓	✓		✓
CO-5			✓			✓	✓
CO-6					✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lectures
2.	Understanding	Face to Face lectures
3.	Critical Skills	Case Study
4.	Analytical Skills	Case Study
5.	Problem Solving Skills	Case Study, Brainstorming
6.	Practical Skills	Case Study, Brainstorming
7.	Group Work	Group Discussion, Assignment
8.	Self-Learning	Guest Lectures, Group Discussion
9.	Written Communication Skills	Case Study
10.	Verbal Communication Skills	Case Study, Brainstorming

11.	Presentation Skills	Case Study, Brainstorming
12.	Behavioral Skills	Group Discussion
13.	Information Management	Case Study, Brainstorming
14.	Personal Management	Group Discussion
15.	Leadership Skills	Case Study, Brainstorming

9. Course Resources

a. Essential Reading

1. Course notes
2. Stephen P. Robbins and Timothy A. Judge, Neharika Vohra (2016). 'Organisational Behaviour', 16th Ed., Pearson.
3. Singh, K. (2015). 'Organizational Behaviour': Text and Case. 3rd edition, Pearson.
4. Uai Pareek (2016). Understanding Organizational Behaviour. 3rd edition, Oxford University Press

b. Recommended Reading

1. Robbins, S. P., Judge, T. A., & Vohra, N. (2011). 'Organizational Behaviour', Pearson Education Asia.
2. Greenberg, J., & Baron, R. A. (2008). 'Behaviour in Organizations', Pearson Prentice Hall.
3. Nelson, D. L., & Quik, J. C. (2008). 'Organization Behaviour', Thomson South Western.
4. Fincham, Robin; Rhodes, Peter; (2010). 'Principles of Organizational Behaviour', Oxford University Press.

c. Magazines and Journals

1. Journal of Organizational Behavior (John Wiley & Sons Publishers, 8 times a year)
2. HBR Magazine (6 times a year)

Course Specifications: Artificial Intelligence in Hospitality

Course Title	Artificial Intelligence in Hospitality
Course Code	BHM401A
Course Type	Combination Course
Department	Hotel Management
Faculty	Hospitality Management and Catering Technology

1. Course Summary

The aim of the course is to introduce the students to fundamental knowledge of artificial intelligence (AI) applied in the hospitality industry. It also aims to develop the skills to identify the potential and challenges of AI.

2. Course Size and Credits:

Number of Credits	2
Credit Structure (Lecture: Tutorial: Practical)	1:0:2
Total Hours of Interaction	45
Number of Weeks in a Semester	15
Department Responsible	Hotel Management
Total Course Marks	100
Pass Criterion	As per the Academic Regulations
Attendance Requirement	As per the Academic Regulations

3. Course Outcomes (COs)

After the successful completion of this course, the student will be able to:

- CO1.** Explain the components and concepts of AI
- CO2.** Identify types and uses of AI
- CO3.** Demonstrate professional communication skills, uphold human values and use relevant technological applications
- CO4.** Examine the role and impact of AI in hospitality industry
- CO5.** Determine and explain AI ethics and characteristics
- CO6.** Discuss and identify AI trends in hospitality

4. Course Contents

Unit 1 (Foundational Concepts of AI): Introduction, Evolution, Concepts, Characteristics, Types, Advantages and Disadvantages

Unit 2 (AI Components): Machine Learning, Deep Learning, Neural Network, Cognitive Computing, Natural Language Processing (NLP), Computer Vision

Unit 3 (Use of AI in Hospitality Industry): Mobile Apps, Data Analysis, Reputation Management, Interactive Experiences, Impact and Role of AI

Unit 4 (AI Ethics and Types): Introduction, Ethical Concerns, Components, AI Access, Reactive, Limited Memory, Theory of Mind, Self-Aware

Unit 5 (Innovations): Concierge Robots, Digital Assistance, Voice-Activated Services, Travel Experience Enhancers, Automatic Data Processing

Unit 6 (Future Trends): AI in Front Office, Food and Beverage, Housekeeping and other sectors

5. Course Map (CO-PO-PSO Map)

	Programme Outcomes (POs)												Programme Specific Outcomes (PSOs)			
	PO1	PO2	PO3	PO4	PO5	PO6	PO7	PO8	PO9	PO10	PO11	PO12	PSO1	PSO2	PSO3	PSO4
CO1	3			2					2				2	2	2	2
CO2	2	2		2					2				2	2	2	2
CO3	2	2		2		3			2	3		3	2	2	2	2
CO4	2			2		2		2	2			3	2	2	2	2
CO5	2			2				2	2	3		3	2	2	2	2
CO6	2			2	1	2		2	2		1	3	2	2	2	2

3: Very Strong Contribution, 2: Strong Contribution, 1: Moderate Contribution

6. Course Teaching and Learning Methods

Teaching and Learning Methods	Duration in hours	Total Duration in Hours
Face to Face Lectures		08
Demonstrations		05
1. Demonstration using Videos	5	
2. Demonstration using Physical Models / Systems		
3. Demonstration on a Computer		
Numeracy		
1. Solving Numerical Problems		
Practical Work		10
1. Course Laboratory	10	
2. Computer Laboratory		
3. Engineering Workshop / Course/Workshop / Kitchen		
4. Clinical Laboratory		
5. Hospital		
6. Model Studio		
Others		22
1. Case Study Presentation	04	
2. Guest Lecture	02

4. Brain Storming Sessions		
5. Group Discussions	04	
6. Discussing Possible Innovations		
Term Tests, Laboratory Examination/Written Examination, Presentations		10
Total Duration in Hours		55

7. Course Assessment and Reassessment

The details of the components and subcomponents of course assessment are presented in the Programme Specifications document pertaining to the B.H.M. (Hotel Management) Programme. The procedure to determine the final course marks is also presented in the Programme Specifications document.

The evaluation questions are set to measure the attainment of the COs. In either component (CE or SEE) or subcomponent of CE, COs are assessed as illustrated in the following Table:

Combination Course								
Subcomponent ▶	CE - 60% Weightage						SEE - 40% Weightage	
Subcomponent Type ▶	Test 1 (15 marks)	Quiz 1 (5 marks)	Quiz 2 (5 marks)	Test 2 (15 marks)	Assign. 1 (10 marks)	Assign. 2 (10 marks)	Semester End Examination	
Weightage in Percentage ▶	15%	5%	5%	15%	10%	10%	20%	20%
Marks ▶	25	10	10	25	20	20	50	50
	Theory	Practical						
CO1	✓	✓					✓	
CO2	✓						✓	✓
CO3				✓				✓
CO4			✓	✓			✓	✓
CO5				✓	✓		✓	
CO6						✓	✓	✓

The Course Leader assigned to the course, in consultation with the Head of the Department, shall provide the focus of COs in each component of assessment in the above template at the beginning of the semester.

Component 1: CE (60% Weightage)

There shall be three subcomponents of CE – Test, Quiz and Assignment. Each subcomponent is evaluated individually – two Tests for 25 marks each, two Quizzes for 10 marks each and two Assignments for 20 marks each (One assignment should be written and the other can be Debate, Seminar, Case Study or any other activity as per the Course requirement).

CE for 100 marks reduced to 60

Component 2: SEE (40% Weightage)

SEE for 100 marks reduced to 40

Course reassessment policies are presented in the Academic Regulations document.

8. Achieving COs

The following skills are directly or indirectly imparted to the students in the following teaching and learning methods:

S. No	Curriculum and Capabilities Skills	How imparted during the course
1.	Knowledge	Face to Face Lecture, Laboratory Sessions, Demonstration using Videos
2.	Understanding	Laboratory Sessions, Demonstration using Videos
3.	Critical Skills	-
4.	Analytical Skills	-
5.	Problem Solving Skills	Group Discussions
6.	Practical Skills	Laboratory Sessions
7.	Group Work	Group Discussions, Case Study
8.	Self-Learning	Laboratory Sessions, Case Study, Guest Lecture, Industry Visit
9.	Written Communication Skills	Assignment
10.	Verbal Communication Skills	Laboratory Sessions, Case Study
11.	Presentation Skills	Laboratory Sessions, Case Study
12.	Behavioral Skills	Laboratory Sessions, Industry Visit
13.	Information Management	Laboratory Sessions, Case Study

14.	Personal Management	Laboratory Sessions
15.	Leadership Skills	-
