Speaker Profile

Dr Hemal Kanvinde is the quality assurance officer of MOHAN Foundation at its head office in Chennai. She is instrumental in organising workshops on brain death and deceased organ donation for medical and paramedical students.

She is also the lead for India's only multilingual National organ donation helpline and is also responsible for public engagement to promote organ donation through training of volunteers, ambassadors, life members and interns. Her work on organ donation has been presented and recognised at various National and International conferences.

She is also the Trustee of Golden Butterflies, an NGO that works for Children's Palliative Care in Chennai
