Background

The revised curriculum reiterated by National Medical Council (NMC) has attempted to enunciate the competencies the students must be imparted and should have learnt, with clearly defined teaching learning strategies and effective methods of assessment. Communicating effectively and empathetically with patients and their relatives has been visualized as a core area of the revised curriculum.

To achieve the goals and roles for the learner;

- Training shall primarily focus on preventive and community based approaches to health and disease, with specific emphasis on national health priorities such as family welfare, communicable and non-communicable diseases including cancer, epidemics and disaster management.
- Clinical training shall emphasize early clinical exposure, skill acquisition, certification in essential skills; community/primary/secondary care-based learning experiences and emergencies

In our attempt to achieve the above a Community based training approach which has been streamlined and strengthened over the last one and half decades is being further augmented in community based training program.

Concepts

'The objective of education is to prepare the young to educate themselves throughout their lives'
Daniel J Boorstin

Strengthening community based teaching for UG students at M S Ramaiah Medical College

Apart from meeting Medical Council of India and Rajiv Gandhi University of Health Sciences requirements, Ramaiah Medical College and Ramaiah Medical College Hospital enhanced the training inputs for UG medical students to be more effective in the society as doctors and lead a health team. Department of Community Medicine has been facilitating this process with the involvement and participation of Management, Principal, Registrar academics, Registrar Administration, Chief-Executive, heads of the departments in the Medical College and all heads of the disciplines of Physiotherapy, Nursing, Pharmacy and Dental.

Context

Except for a couple of medical institutions in the country, Medical Education does not meet the needs of making a basic doctor. There is wide gap between precept and practice. The proposed attempt is to strengthen and orient the teaching and training towards primary health care through Community based training to **create effective health care professionals and leaders in the society.**

Goals

1. Enable the institution to work towards social accountability – in its service, training and research endeavours.
2. Encourage the spirit of team work towards unity for health.

M.S. RAMAIAH MEDICAL COLLEGE, M S Ramaiah Nagar, MSRIT Post, Bangalore 560 054

Bangalore - 560 054.

3. Enhance effective Communication Skills through creative learning environment
4. Encourage development of equitable and humane attitude to vulnerable/ marginalised groups – people living in villages/slums/poorest of the poor and people with disability.
5. Inculcate the spirit of inquiry for research aptitude.
6. Sensitize the students towards gender equity

Values Cherished:

Honesty, Sincerity, Integrity, Transparency, Compassion, Sympathy, Non-discriminatory attitude, Team work, Leadership qualities, concern for marginalized sections of the society like socially and/or economically backward groups, women, children, elderly, differently-abled individuals, etc.

Specific learning objectives for CBTP

Phase II

1. *To evaluate the organization and functioning of the health care delivery system in India (Visit to primary, secondary, tertiary healthcare institutions)*
2. *To be sensitive to and identify needs (health, developmental) of vulnerable groups who require special care (Survey, Visit to school for differently abled, Visit to urban slum, School health examination)*
3. **To employ scientific methods of data collection and research in a community (Survey)**
4. *To organize and conduct health camps in a resource limited setting to provide healthcare for common illness and referral*
5. **To create health awareness and inculcate habits of healthy living in the community. (School and Community health education)**
6. *To do anthropometric measurement of individuals in given family*
7. *To explain effect of socio-environmental conditions on the health of the family*
8. *To plan and recommend suitable diet for family*
9. *To assess housing condition and presence of overcrowding in a given family*
10. *To do nutritional assessment of under five children in anganwadis*

Approach

- Strengthen existing opportunities of block postings / internship in community medicine in particular.
- Initiate introduction of preliminary and advanced community based practical modules.
- Ensure participation of all disciplines in community based curriculum development, orientation, training and service.

It is hoped that experiences with communities of rural and urban in an intensified way will help our students fulfil the roles of Indian medical Graduate as envisaged by NMC. Our institution will be one of the very few institutions in the country practicing community based teaching in letter and spirit.

Process followed

In view of the COVID Pandemic, Community Based Training Program has been modified to suit the online delivery of the programme. Due to the pandemic condition, visits to the healthcare delivery facilities and community visits cannot be implemented. Hence only aspects that can be executed

Bangalore - 560 054.

online have been taken up for the present phase II program. For the present sessions CBTP Phase II Part I learning objectives 3 and 5 was implemented.

Mode of delivery

The mode of delivery was online and Microsoft Teams was the platform that was utilised. All facilitators were trained to create breakout rooms and plenary sessions for smooth implementing of group activity and plenary sessions.

The students were divided into groups and group activities were interspersed with plenary sessions. Group activity and discussions were monitored and facilitated by a facilitator.

The students were given a set of pre reading material, are expected to read and come prepared for the sessions. Flip classroom mode of teaching was attempted during this CBTP session. Pre-reading material was uploaded on Teams platform for the students to access.

A pre and post- test were conducted before and after the program to assess the change in the cognition of the students. The assigned group activity were evaluated by the faculty with the help of checklist. The students were asked to evaluate their peers in term of of their involvement and contribution in group activities.

Expected outcomes

It is expected that the students will be equipped with:

- Knowledge and Skills necessary to prepare the health education materials on the select topic.
- An overview Knowledge of steps in carrying out research and skills required to write and implement scientific research.

As a result the following outputs are expected :

- Health education materials that can be utilised to create awareness on a select topic either on online platforms or on an offline mode.
- A research protocol with preliminary results.

Student profile

Total of 163 students participated in the program. Interdisciplinary was attempted and accordingly medical and pharmacy students participated. Nursing, dental and physiotherapy were not been able to participate as their university exams were upcoming.

- 143 Medical students
- 20 Pharmacy students.

Programme schedule

Department of Community Medicine Program schedule for CBTP Phase II (Module 1) for II MBBS students

10th – 14th July 2021 Online

Day & Date	Time	TL	Topic	Faculty for medical students	Faculty for pharmacy students
Sat 10/07/ 21	Competency: CM 1.6. Describe and discuss the concepts, the principles of Health promotion and Education, IEC and Behavioral change communication (BCC)				
	9- 9.10 am – Address by Principal – Overview of the program				
	9-10 am	Interactive session	<ul style="list-style-type: none"> Recap of concepts and principles of Health Promotion and Education –30 minutes Practical aspects of preparation of IEC material – 30 minutes 	SCN	
	10 -11.30	Interactive session	<ul style="list-style-type: none"> Break into groups for the activity. Selecting the topic and planning for IEC activity. 	KL,SH ,AI, GS, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
	11.30-11.45	Break			
	11.45-1.00 pm	Plenary	Presentation of IEC plan of the groups to the class	All faculty	
Sun 11/07/ 21	9-5 pm	Group activity	Development of IEC materials	SH ,AI, GS, KL, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
Mon 12/07/ 21	Competency:				
	CM 4.2. Describe the methods of organizing health promotion and education and counselling activities at individual family and community settings				
	CM 4.3. Demonstrate and describe the steps in evaluation of health promotion and education program				
	CM 6.1 Formulate a research question for a study.				
	9 am - 9.30 am	Plenary	Steps in evaluation of Health Promotion and education Program	TH	
9.20 - 10 .30 am	Plenary	Presentation of IEC materials (Plenary)	All faculty		
10.30 – 11.40 am	Plenary	Research methodology Cycle and protocol development	KL		
11.40 – 12.00 noon	Break				

	12.00 – 1.00 pm	Plenary	Defining the problem Prioritizing the problem	BSN	
	1.00 – 2.00 pm	Lunch			
	2.00 - 3.00 pm	Plenary	Asking the right question	Dr. Tanuja	
	3.00 - 4.30pm	Group activity	Framing the right question Group activity	SH ,AI, GS, DRR, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
TUE 13/07/ 21	Competency: CM 6.1 Formulate a research question for a study.				
	9.00 -10.00 am	Plenary	How to search literature?	Dr. Chidambaram Murthy	
	10.00 - 11.00 am	Group activity	Refining the question and preparation of protocol	SH ,AI, GS, DRR, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
	11.00 - 11.20am	Break			
	11.20 – 1.00 pm	Plenary	Blue print for action (Protocol)Presentation of the research question	All faculty	
	1.00 – 2.00 pm	Lunch			
	2.00 -4.00 pm	Plenary	Tools for Data Collection creating Google forms and collect the data	NSS	
WED 14/07/ 21	Competency: CM 7.9. Describe and demonstrate the application of computers in epidemiology				
	9.00 -10.00 am	Plenary	Presentation of data	NSS	
	10.00 – 11.00 am	Group activity	Hands on group activity of data analysis and presentation of data	SH ,AI, GS, DRR, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
	11.00 – 11.15am	Break			
	11.15 – 1.00 pm	Group Activity	Hands on group activity for data analysis and data presentation	SH ,AI, GS, DRR, PC,CP BR,AR	Dr. Maheshwar i/ Dr. Manoj
	1.00 - 2.00 pm	Lunch			
	2.00 – 4.00 pm	Plenary	Presentation of research activity	All faculty	

Outcomes

Each of the groups were asked to prepare Health education material and the topics chosen by the students are as follows:

List of Health education materials developed by each group:

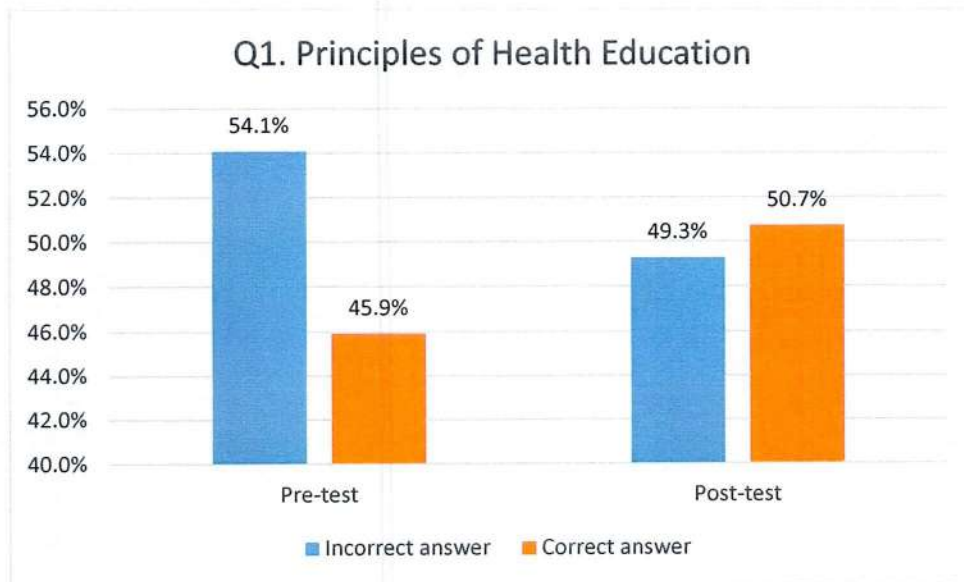

Group	Health education Topic
1.	Health In Lock Down
2.	Maternal and Child Care during the pandemic
3.	Domestic Abuse and Its Mental Health Implications
4.	Infodemic
5.	Food Hygiene and Safety
6.	Menstruation and Menstrual Health Management
7.	Drug Abuse
8.	Tuberculosis
9.	Rational use of Antibiotic and importance of Vaccination

List of Research protocols developed by the student groups:

Group	Research Topic
1.	Effect of Lockdown on sleep pattern among young adults.
2.	Gender Discrimination at workplace
3.	Effect of lockdown on the eating habits of the student population
4.	Effect of Lockdown on Physical activity of young adults
5.	Prevalence of body shaming and its effects on social and emotional behaviour among students of a medical college in a metropolitan city.
6.	KAP study on Blood Donation
7.	Awareness on Menstrual Cup among all genders of Medical Students
8.	Prevalence and Determinants of Depression, Anxiety and stress among undergraduates students of Ramaiah medical college
9.	Perception of General public on antibiotic usage.

CBTP Pre-test and Post-test Analysis

- No. of students answered pre-test – 159
- No. of students answered post-test – 140
- Average score in pre-test – 7.66 (2.37)
- Average score in post-test – 8.84 (2.64)
- Unpaired t-test p-value - <0.01

Sessions	Answer	Pre-test n (%)	Post-test n (%)	Chi-square
Q1. Principles of Health Education	Incorrect	86 (55.5)	69 (44.5)	0.407

3. RATING OF PROGRAMMES (1- least score, 5 – highest score)

Medha Gao
PRINCIPAL AND DEAN
M.S. Ramaiah Medical College
& Teaching Hospital
Bangalore - 560 054.

Based on the pre and post-test analysis it was observed that there has been a significant change in the knowledge base of the students with regard to research. The feedback of the program from the students was satisfactory.

Photographs of the online sessions

Steps forward:

- The respective groups and facilitators to pursue the research project, submit the same to the scientific committee and ethical committee to take the research study forward.
- Respective groups to refine the Health Education materials such that it can be used in Ramaiah Medical College Hospital.

Students Research Projects 2021-2022

Si. No.	Date	Protocol Title	Student name	Designation, course	Guide Name	Department
1	11.11.2021	Prognostic nutritional index (PNI) and Systemic immune-inflammatory index (SII) as markers for predicting disease severity among patients with COVID-19 infection.	Rithika M Reddy	4thyr MBBS Student	Dr. Ashwin Kulkarni	Gen Medicine
2	11.11.2021	Fundus changes in pregnancy induced hypertension	Dr Ankita S Kulkarni	2 nd year PG	Dr. Ksheeraja	Ophthalmology
3	11.11.2021	Psychosocial impact of the COVID-19 pandemic on the Caregivers of high-risk children as compared to caregivers of non-high-risk children: A Case Control study.	Aparna S	9 th term MBBS	Dr Somashekar A R	Pediatrics, Com Med
4	11.11.2021	A Study of ophthalmic manifestations in Parkinson disease	Anusha GA	Intern	Dr Divya S	Ophthal, Neurology
5	11.11.2021	Perceived reasons for incomplete coverage of COVID-19 vaccination in rural field practice areas of Ramaiah Medical College.	Sonia Babu	9th term, MBBS	Dr. Ananth Ram	Comm Medicine
6	11.11.2021	Comparative Study on Sanitary Pads and Menstrual Cups in Managing Menstrual Health and Hygiene.	Varsha A	5th term, MBBS	Dr Jyothi GS	Obs & Gynaecology
7	11.12.2021	Study of cognitive impairment and psychological sequelae and functional limitations among patients previously infected with COVID-19 attending postcovid clinic: A tertiary care hospital study.	Shivani Shivamadhu	4th Year MBBS	Dr. Hemendra Singh	Psychiatry, Comm Med
8	11.12.2021	Impact of COVID 19 pandemic in the treatment of Diabetic foot in tertiary care center	Vishnu P Prasad	Intern	Dr Kalaivani	Gen Surgery
9	11.12.2021	Study of Bacterial Vaginosis and Vitamin D deficiency among women in First trimester of Pregnancy in a tertiary care hospital	Niharika Mahesh	7 th Term MBBS student	Dr Jyothi G S	Obs & Gynaecology & Biochemistry
10	11.12.2021	Breastfeeding Practices During COVID 19 Pandemic In Rural And Urban Field Practice Areas Of a Medical College in Bangalore – Mixed Method Approach.	Dr Aishwarya V G	PG, Comm. Medicine	Dr G Suman	Comm Medicine

11	21-01-2022	Evaluation of retinal nerve fibre layer by optical coherence tomography in patients with multiple sclerosis.	Dr Anusha Aynala	PG Student, Ophthalmology	Dr. Thanuja G Pradeep	Ophthalmology
12	21-01-2022	DKA SEva-Exploring Clinical Practices And Patient Perspectives On Diabetes-related Ketoacidosis (DKA) Management	Dr. Varun Vinayak Prakash Rao	Resident	Dr. T.Anil Kumar	General Medicine
13	21-01-2022	Impact of COVID 19 pandemic in the treatment of Diabetic foot in tertiary care center	Vishnu P Prasad	Intern	Dr. Kalaivani	General Surgery
14	21-01-2022	Psychosocial Sequelae of Endocrine Disorders with respect to Body Image	Prakruthi R U Kumar	2 nd year MBBS	Dr. Pramila Kalra	Endocrinology
15	31-01-2022	Role of Granulocyte transfusions in life-threatening neutropenic sepsis: Experience from a tertiary care center in South India.	Dr. Arjun Mandade	Resident	Dr. Santhosh. K. D	Medical Oncology
16	31-01-2022	Urinary α -1 microglobulin as a marker of nephropathy in type-2 Diabetes mellitus	Shreya Thadigotla	2nd year MBBS	Dr. Shashikala MD	Biochemistry
17	31-01-2022	Study of Serum Cystatin C levels as a predictor of severity and mortality among patients with Covid-19 infection in a tertiary care hospital.	Kavya Prasad	7th Term MBBS	Dr. Ashwin Kulkarni	General Medicine
18	31-01-2022	A study to determine the correlation between urine microalbumin (ACR), serum C-Reactive protein (CRP) and cardiovascular risk markers in type 2 Diabetes Mellitus patients	Manvitha T	3rd year MBBS	Dr. K S Meera	Biochemistry
19	31-01-2022	Serum NT-proBNP Levels in predicting severity of Covid19 infection	Nandan K	1st year MBBS	Dr. Navikala K	Biochemistry
20	31-01-2022	A study to assess the correlation between Salivary Alpha 2 macroglobulin and insulin resistance in Gestational Diabetes Mellitus	Ruthvik	2nd year MBBS	Dr. Urvashi Thukral	Biochemistry
21	31-01-2022	Cognitive impairment, psychological sequelae and functional limitations among patients attending postcovid clinic	Shivani Shivamadhu	4th Year MBBS	Dr. Hemendra Singh	Psychiatry
22	31-01-2022	Role of Trans-Cranial Doppler (TCD)in Traumatic Brain Injury	Prachi Bajaj	9th Term, MBBS	Dr.Rakshith Srinivasa	Neuro Surgery and Neurology

23	01-02-2022	Assessment of apTT and PT levels as surrogate markers for D-dimer levels in monitoring COVID 19 patients.	Himanshu S. Jog	3rd year MBBS	Dr. Mangala Gouri SR	Pathology
24	01-02-2022	Placental Morphology and Morphometry in pregnancies associated with and without Postpartum Haemorrhage: A Case-Control Study	Prakruthi R U Kumar	2nd year MBBS	Dr. Prathap Kumar J	Anatomy
25	01-02-2022	An exploratory study to assess the provider willingness for using telemedicine in delivering rural health care in Karnataka: opportunities and challenges	ParvMathur	2nd year MBBS	Dr. Nandakumar	Community Medicine
26	01-02-2022	Study of Adiponectin in lean type 2 diabetes mellitus	Noynika Shukla	2nd year MBBS	Dr. Krishnamurthy U	Biochemistry
27	01-02-2022	Comparative study of BUN/Albumin ratio (BAR) with D dimer/Albumin ratio (DAR), A better prognostic indicator for outcomes of hospitalised COVID 19 patients.	Vignesh Prakash	2nd year MBBS	Jolly Anil John	General Medicine
28	04-02-2022	Morphometry of digastric muscle and its neurovascular supply: A cadaveric Study	Zohra Fathima	2nd year, MBBS	Dr. Anupama K	Anatomy
29	04-02-2022	Analysis of Caesarean section rates using modified Robson's Ten Group Classification (mTGCS) at a tertiary care hospital in Bengaluru.	A Akshata	2nd year MBBS	Dr. Sivasambu Gayatri Devi	Obstetrics & Gynaecology
30	04-02-2022	Association of long-term metformin therapy and vitamin B12 deficiency in type two diabetes mellitus patients and its effects on neuropathy.	Rohini S Yelemane	2 nd year MBBS	Dr. Swati Hegde	General Medicine
31	04-02-2022	Uric Acid-to-Albumin Ratio: A Novel Marker to Assess the Severity of Coronary Artery Disease in MI	Sana Sultana	4 th Year MBBS	Dr Mohammed Suhail K	General Medicine
32	04-02-2022	Electrocardiographic changes in patients with hyperthyroidism versus healthy controls.	Anisha D	1 st Year MBBS	Dr. Vijayadas	Physiology
33	04-02-2022	Strengths and Difficulties Questionnaire: Norms in Indian Children.	Vaarya Rupani	2nd year MBBS	Dr Sangeetha Shenoy	Paediatrics
34	04-02-2022	Oxidative stress markers in primary hypothyroidism versus euthyroid controls.	Isha Verma	2 nd year MBBS	Dr. Pramila Kalra	Endocrinology

35	04-02-2022	Correlation between serum irisin levels and body composition in Adult women with PCOS	Ishika Chaudhary	2nd Year MBBS	Dr. Ganavi	Endocrinology
36	09-02-2022	A comparative study of neurodevelopment of infants born during the COVID-19 pandemic and effect of COVID-19 infection on neurodevelopment in a tertiary care center	Ananya Prasad	1st MBBS	Dr. Prarthana Karumbaiah	Paediatrics
37	09-02-2022	Changes in serum irisin levels in patients with thyroid dysfunction compared to normal subjects	Vagisha Gupta	2nd year MBBS	Dr. Manjunath	Endocrinology
38	09-02-2022	Prevalence of binge eating disorder and night eating syndrome in patients with type 2 Diabetes and its association with glycemic control.	Pradhan A Kumar	2nd year MBBS	Dr. Chitra Selvan	Endocrinology
39	09-02-2022	Barriers to Geriatric Healthcare of Old Age Home Residents during COVID-19 Pandemic in the period 2021-22	Isha Chakraborty	1st Year MBBS	Dr. Suman G	Community Medicine
40	09-02-2022	The association of Lipid Accumulation product (LAP) and cardiometabolic index (CMI) with Insulin resistance (IO) in Metabolically Obesity Normal Weight (MONW) adults.	Kathik Yadavalli	2nd year MBBS	Dr. Akshay Rao	General Medicine
41	10-02-2022	Effect of wearing a cloth mask and surgical mask on performance and physiological responses during a graded treadmill running exercise test	Bhoomika Y	2nd Year MBBS	Dr. Radhika PM	Anatomy & Physiology
42	10-02-2022	A prospective observational study on the prevalence of diastolic dysfunction among the population above the age of 40, risk factors associated with developing diastolic dysfunction and techniques to diagnose and stage diastolic dysfunction.	Vinay C Bellur	1st MBBS Student	Dr Tharanath	General Medicine
43	10-02-2022	Knowledge, Attitude and Practices of measurement of blood pressure among undergraduate medical students.	Prakriti Ramamurthy	7th Term MBBS	Dr. Vishwanath Krishnamurthy	General Medicine
44	10-02-2022	Effect of increased screen time on eye health due to e-learning in Public versus Private schools during the pandemic	Ananya Krishnamurthy	Ist Year MBBS	Dr. Divya Dabir Sundaresh	Ophthalmology
45	10-02-2022	3D modelling of diabetic foot wounds for better construction of offloading footwear	Adithya S	1st year, MBBS	Dr. Sreekar Pai	General Surgery

46	10-02-2022	Association of subclinical hypothyroidism with carotid intimomedial thickening	Advaith N Rao		Dr Vinay M. D. Prabhu	Radiodiagnosis & Endocrinology
47	10-02-2022	Comparing the Normal Left Ventricular Ejection Fraction and Ventricular Wall Thickness among Young Adult Males and Females in India	Ullas BS		Dr. Anupama V Hegde,	Cardiology
48	10-02-2022	Clinical profile and severity of COVID-19 infection in vaccinated patients	Aishwarya Raveendra Katti	4th Year MBBS	Dr. Divya Prabhu	General Medicine
49	10-02-2022	Association between Time in Range, a Continuous Glucose Monitoring metric and Cardiac Autonomic Neuropathy in Type 2 Diabetics.	Aditya Karthikeyan	Final Year MBBS	Niveditha Alok Swamy	General Medicine & Endocrinology
50	12-04-2022	Relevance of Minimal Residual Disease in acute lymphoblastic leukemia and its relationship with other prognostic factors	Dr. Chinmayee Agrawal	2nd year DM Medical Oncology	Dr. Rasmi P	Medical Oncology
51	12-04-2022	Safety and outcome analysis of preoperative chemoradiation (PreCIRT) in esophageal carcinoma: A Real-World Experience	Dr. Shuchita Pathak	2nd year DM Medical Oncology	Dr. Vinayak V Maka	Medical Oncology
52	12-04-2022	Knowledge, attitude, practice for insulin injection device disposal in Southern India.	Mansvani Sharma	Intern, MBBS	Dr. Pramila Kalra	Endocrinology
53	12-04-2022	Association of Clinical features and laboratory Parameters in terms of outcome on MIS-C cases reported in a tertiary care Centre	Dr. Suvetha P	2nd year MD Student	Dr. Sunilkumar BM	Paediatrics
54	04-07-2022	Epidemiology and outcome of solid organ cancers in adolescents and young adults: Experience from South India	Dr. Shuchita Pathak	Senior Resident	Dr. Swaratika	Medical Oncology
55	04-07-2022	Blood levels of arsenic, chromium, mercury, lead in adolescents	Dr. Deepthi K	3rd year PG student	Dr. Chandrika Rao	Paediatrics
