- Technology-enabled learning spaces
- Ramaiah Memorial Hospital
- NABL accredited Laboratories
- Techno Centres
- Incubation Centre

For the 'Sports Enthusiast' in you

- 200 metres running tracks
- Prepared Football ground
- Prepared ground for volleyball, throw ball & handball
- Multipurpose ground with pavilion For
- Cricket, Football, Volleyball, Field
- Hockey
- Basketball Court
- Gymnasium
- Yoga centre

ACHIEVE DENTAL EXCELLENCE FOR HOLISTIC ORAL WELLNESS

The Faculty of Dental Sciences offers an outcome-based curriculum and helps students develop critical thinking abilities and imbibe relevant practical skills for a smooth transition from academics to a real-life work environment. Opportunities are provided for students to do their internship in India or abroad, depending upon their preference. Alumni of the Faculty are working for quality healthcare organisations in India and abroad, while many have established successful practices of their own.

PROGRAMME OVERVIEW

Special care is taken to ensure that students receive rigorous practical training under the guidance of experienced faculty members. Research is also promoted, and students are encouraged to develop a scientific curiosity about their field of study. This multipronged approach to dental education ensures that, in addition to knowledge, our students are equipped with the skills necessary to navigate the uncertainty of the future. They are moulded into independent thinkers, determined scholars, and competent healthcare professionals who prioritise the well-being of patients above all else.

BDS | MDS | PhD
